Golden Shell Motor Oil

Does 4 jobs at once!

"Lightning is 'slow motion' compared to me. If you had x-ray eyes you'd see me do the 4 jobs — all at once — the instant your engine starts . . .

1. "COOL your engine. I help keep it from gettin' hot up too much when you step on it.
2. "CLEAN out grit an' carbon. I can't stand rubbish hangin' around precision machinery.
3. "SEAL in power. It's a sin to waste power through that little crack between pistons an' cylinder walls!
4. "OIL every one of the movin' parts! Somethin's bound to get hurt if there's friction.

"How do I get that way? It's just a case of proper [illegible]. Officially, they say I'm a steal at a quarter a quart!"
