VOL. XXXVII. NO. 38. COQUILLE, COOS COUNTY, OREGON, THURSDAY, OCTOBER 2, 1941. $2.00 THE YEAR

Coquille City Budget For Six Months, $39,017

To conform to the new state budget law, pased at Salem last winter, the Coquille city budget which appears elsewhere in this issue, is for the six months period, from Jan. 1 to June 30, at which time the fiscal year prodcedure will be in effect.

The total estimated expenditures for the half year were set by the budget committee at $39,017.40; the estimated receipts at $19,519.48, leaving a balance of $19,497.92 to be raised by taxation. This is $5,671.84 less than the budget adopted last fall provided for the entire year of 1941. The total estimated expenses for 1941, as budgeted a year ago, amounted to $54,204.76.

The personal services item a year ago for 1941 totalled $10,270 for the general fund and $4,220 for the water department. Next year, for the six months period, the general fund personal services figure is set at $5,891 and for the water department at $2400.

The indebtednes items show substantial increases also. For payment on bonds and interest on general fund indebtedness, $3,100 was budgeted last fall for 1941, and $8,385 was for water fund debt. For the first six months of 1942 the debt requirements for the general fund call for $3,060, and for the water fund $9,185.

Just what this budget will mean in the Coquille city levy for the first half of 1942 taxes has not yet been figured, for the city's assessed valuation has not been announced by Assessor Forrest, but that it will be more than half of the 18.3 mills levied for 1941 goes without saying. As a guess, and it is only a gues, the levy will be somewhere between 12 and 15 mills for the half year.

Barely Escaped Being Mashed

Two accident cases were brought to the Coquille Hospital yesterday. Lester Bowlby, 17-year old Fairview young man who works for J. A. Angell & Son of McKinley, was working under the deck, dragging out ties from under the saw when the off-bearer dropped a tie which hit him on the right arm, breaking both bones.

Thomas Williams is in a much more serious condition. He drives a logging truck for Lloyd Chambers of Roseburg, but the road to the latter's camp was so slippery that he was hauling from the Frank Fish camp. He had a large load on a steep hill and when the brakes failed to work the truck gained momentum.. He cannot tell just when he jumped as he was later found in a semi-conscious condition with the logs slid forward and the cab mashed. He suffered a fractured back and concussion.

Two of Faculty Lose A Parent

Two members of the high school faculty were saddened last week by the death of a parent. Mrs. Osika, mother of Clarence Osika, passed away at her home in Salt Lake City last Wednesday. She is survived by her husband and two other sons, Glenn and LaMar, of Park City, Utah.

Harold Withnell, music instructor and director of the band, was called to Portland by the death of his father Tuesday night.

Bundles For Britain Unit In Farr & Elwood Bldg.

Mrs. A. O. Walker, president of the local unit of Bundles for Britain, Inc., announces that beginning Monday, October 6, Bundles for Britain headquarters will be open from 1:30 to 4:30 p. m. on Mondays, Thursdays and Fridays. The headquarters room is next door to the Coquille Hospital in the Farr & Elwood block. Knitting instructions and yarn may be had at headquarters.

Fees Paid In County Clerk's Office in September

Fees paid at the county clerk's office during September totalled $1,029.25, of which $498.95 was for recording, $304 for circuit court cases filed, $95.50 for probate and county court filings, $66 for marriage licenses, and $64.80 from miscellaneous sources.

To Raise Building Walls Next Wed.

All the carpenters in Coquille and vicinity are going to assemble at Myrtle Park next Wednesday, Oct. 8, to assist in raising the walls for the new Community Building. They are planning on a potluck dinner at noon, and a donated day's work to get the frame work up and ready for the roof.

Another event planned for around the first of November, after the building is enclosed and the roof is on, is a big public dance. Shady's orchestra has agreed to furnish the music without charge; Marc Shelley says he will have the sub-floor sanded, and all the proceeds will go to the building fund.

Everyone in Coquille and vicinity will be asked to buy a ticket whether he or she dances or not. It is estimated that the building fund can be increased by $300 from this affair.

Chemist Talks On Dried Milk

Tom Marquis, chief chemist for the Western Condensing Co., made an interesting talk at the chamber of commerce in the hotel Tuesday noon, telling something about the dried milk process and the manufacture of whey into chicken feed by the 17 plants of the company which are located in various parts of the U. S.

Thirty-five or forty years ago the farmer fed his skim milk to the hogs. If he had no hogs it was usually dumped. That waste of former days is now utilized and goes into a dried milk which has several uses. Bakers now use it for one thing and Mr. Marquis' statement was that the 4 to 6 percent of dried milk they use gives a better color to the crust and keeps the bread fresh longer.

There are two processes in drying milk, one a roll process and the other a spray into an extremely hot chamber.

In the spray process the milk which is not dried is used for making casein for which there are innumerable uses. One is for making glue which is used in plywoood manufacture, and which can be waterproofed.

The sizing of paper, giving it a calendered surface, or of calico before it is printed is done with casein. The latter is also used in making cold water paint, shoe polish, and other items, and Mr. Marquis said he saw a suit of clothes made entirely of casein, even the buttons and thread as well as the fabric. He said it was not iimportant for its medical properties.

Most plasters are made from casein. He stated that as only about6 pounds of solids can be secured from 100 pounds of whey that it is not profitable to bring it to the plant here from a distance greater than 30 or 40 miles.

Vitamin G is derived from whey—it was formerly classed as vitamin B until processes were developed to further break down the molecules—and G is used principally for chicken feed.

He touched lightly on the lactose extraction from whey, which was mentioned in the Sentinel a few weeks ago, and a lactic acid is derived from that process which is used in plastic manufacture.

Mr. Marquis concluded his talk with the statement that eventually the company hopes to develop a process for the fortifying of cereals from the albumen content of tried milk and whey.

Mr. and Mrs. Robt. Littrell Leave For S. F. Tomorrow

Bob Littrell, who severs his connection with the Earl Littrell Supply Co. this week, will leave Friday morning, with Mrs. Littrell, for San Francisco where he will be employed by the Federal Mogul Corporation, a concern dealing in bearings.

His place in the Littrell store here has been taken by his brother, M. O. Littrell, who has moved here from Marshfield.

Mrs. Florence Hallock last week made a deal for the purchase of [illegible] Acres, across the highway from the high school.

Mr. and Mrs. A. Lingerfelt of Bend, Oregon, were week end visitors at the home of Rev. and Mrs. Charles Goodwin Brown. While here they spent a couple days at the coast; traveling down the Oregon coast from Astoria to Gold Beach on their trip. Mr. and Mrs. Lingerfelt declare this part of their trip was the best of all.

Organizing For Coos Minerals Development

After discussing the entire problem of discovering, classifying and identifying, and exploiting southwestern Oregon mineral deposits, a dozen southwestern Oregon claim-holders Tuesday night at Marshfield's city hall elected R. J. Hillstrom of Marshfield temporary chairman of the Southwestern Oregon Minerals association and invited all interested persons to a meeting Tuesday night, Oct. 14, at which permanent organization will be completed.

Hillstrom, a mining engineer graduate at Oregon State college, is a Coos Bay contractor and inventor of a coal-reduction device to recover by-products, but was elected chairman because he holds no hard-rock claim and could act as a neutral party in various matters. Acting secretary is Mr. Schultz of North Bend who together with Chairman Charles Granby of the AFL central labor council's committee on minerals has been active in interesting Bonneville engineers in attempting to interest eastern capital in a reduction plant for this district.

It was decided that a committee from the group will ask the county courts of Coos and Curry counties to budget during the first six months of 1942 for a full-time geologist or mining engineer who can sample, analyze and help exploit the chromite, manganese, antimony, molybdenum, tungsten, copper and other deposits of this region. Full support of civic and commercial groups will be obtained before the budget committee is contacted. Upon suggestion of J. G. McCollum, metallurgist for the Bonneville administration, it was decided to ask for two or three WPA clerks to aid in record-keeping and publishing if the geologist is hired by the counties.

Les Child of Coquille reported that he is putting in a mineral ore display at Coquille this fall.

Deer Dressed Out 195 Pounds

Jess Williams and LeRoy Rice, who returned a week ago from their hunt in the Bly section, on Gearhart mountain, east of Klamath Falls, brought in the biggest mule tail deer yet checked in here. The fat, kidneys, feet, etc., were cut out or off over here, and when placed on the scales here it weighed 195 pounds, indicating its live weight to have been better than 225 pounds.

The Gillespie-Cunningham-Hand-Smith - Ralph Taylor - Bert Taylor party which went over east of the Cascades, returned the latter part of last week with nine mule tail.

In reporting on the Gould-Emery-Bosserman party, Furb Emery says that antelope hunting was the most dangerous he ever saw, with the plains covered with hunters, but that Bert Gould killed one antelope buck with a most beautiful set of horns.

Registration 288 At Coquille H. S.

Total registration in Coquille High School to date, as reported by Principal Clarence Osika, is 288, fourteen more than it was at this time last year.

A $10 contribution to the Community Building fund has been voted by the student council and this afternoon 20 high school boys are donating a half day's labor on construction work.

Rev. H. G. Downey To Speak Sunday at Assembly of God

The Assembly of God will be host to Rev. Harry G. Downey this coming Sunday, who will be speaking at each of the Sunday services, morning and evening. Rev. Downey is a veteran missionary from the Belgian Congo, Africa, having spent [illegible] there. Sunday evening he will be showing moving pictures of that land, pictures which he took himself while on that continent.

Rev. L. C. Persing, pastor of the church, says that the public is invited to these services.

Mrs. Graydon Crews left last Sunday for Seattle to join Mr. Crews, who is a naval reserve officer located at Sand Point.

Dam Carried By Mules

Talk about your high cost of building! The dam which E. L. and Craig Perrott are building for A. T. Jergen on the south side of Rogue river will cost around $3,000, nearly four times what it would if it was only 10 or 15 miles from Coquille.

The dam is for a reservoir on the Jergen estate where he has over $200,000 invested in land, buildings, etc.

It's quite a transportation story that Ernie tells us about that dam.

In the first place Benham's Transfer has to sack all the gravel, 1200 sacks of it, near the China Flat 3C camp. It is then hauled by truck to the north side of the Rogue river where it is loaded onto an aerial carrier for crossing the river. Reaching the south side it is loaded on to pick-up trucks which carry it to the foot of the steep path leading up the hillside. From there 24 mules, each loaded with two sacks, carry it up the precipitous route to the dam site. The mules make 13 round trips a day.

Not only the gravel, but 200 sacks of cement, the 3500 feet of lumber, and the 1500 lineal feet of re-enforcing iron have to be transported by the same method.

Mr. Jergen has one of the most beautiful estates of the many along the Rogue and it represents a lot of money invested.

Ashland To Play Here Saturday

The Coquille Red Devils' first home game as well as their first non-conference tilt, is to be with the Ashland High eleven at Athletic Park at 2:00 p. m., Saturday. If Coach Leslie has any information about the visitors' potential strength he has not made it public but probably his Red Devils charges have been coached on defense against their offensive plays.

Let's turn out and show the Red Devils squad that their home town is back of them to a man, woman, boy and girl.

E. W. Tichenor Made A Sergeant

Word was received by Sergeant Irving Larson in charge of the local state police office, that E. W. Tichenor, who has been conected with the office here for the past several months, has been promoted and made a sergeant. He will be transferred within a week to the Klamath Falls office. His successor here has not yet been announced.

Lions' Good Neighbor Policy

The Lions club on Thursday showed its endorsement of the Good Neighbor policy, when it gave Ed Sempert, Myrtle Point druggist, a myrtlewood block and gavel to take with the club's greeting in Mexico City Lions, when he visits them this month.

Appearing on the program at the luncheon meeting was Jack Carroll, who sang several songs. He was accompanied by Bobbie Burns. Scoutmaster L. Morley gave an interesting talk on local Boy Scout work.

Lion president, L. W. Claver, appointed Bill Barrow, Don McEniry, Dave Biegger, Dr. Dehne and Glenn Claver as members of the dance committee to work with five Rotarians.

A. R. Terrell Severely Injured Again, Wednesday

A. R. Terrell, who just a year ago was seriously injured when attacked by a bull, was the victim of a severe accident Wednesday evening. While hunting in the hills back of his farm on the Marshfield highway, he fell from the edge of a cliff, fractured a leg, injured an arm and received a critical head wound. The extent of his injuries was not definitely ascertained, but he was taken to Roseburg [illegible] rell and friends from Kansas, with whom he was hunting at the time of the accident.

Mrs. Connie Lowery, who before her marriage was Connie Willoughby, former employee in the telephone office here, in the court house, and as stenographer for J. J. Stanley, left last Saturday for her home in Salinas, Calif., after visiting old friends here for several days.

Mayor's B. P. W. Proclamation

Whereas, October 5th to October 11th, inclusive, of the year 1941, has been declared as National Business Women's Week; and

Whereas, it is fit and proper that said Week should be set aside as National Business Women's Week, and that every individual co-operate to the fullest extent in making said week a successful annual event.

Now Therefore, I, Ralph F. Milne, Mayor of the City of Coquille, Coos County, Oregon, by and through the authority vested in me do hereby proclaim and declare October 5th to October 11th, inclusive, of the year 1941 as National Business Women's Week, and hereby request that all parties interested therein co-operate with the local Business & Professional Women's Club, in observing said Week and making this a successful event.

Ralph F. Milne, Mayor.

Milk Is Up Cent A Quart

Retail milk and cream prices took another jump upward yesterday and four per cent milk which has been retailing for 12 cents a quart is now 13 cents. Half pints of milk went up from 5 to 6 cents, pints from 7 to 9 cents and gallons from 45 to 52 cents.

Coffee cream—18 to 22 per cent—rose from 18 to 21 cents for half pints, 30 to 33 for pints, 50 to 60 cents for quarts, and $1.60 to $2.30 for a gallon..

Whipping cream which is 30 to 33 per cent, rose four cents, from 22 to 26 cents for half pints, from 35 to 42 cents for pints, from 65 to 76 cents for quarts, and from $2.60 to $3.00 for gallons. .

These are the dairy prices in Coquille, occasioned by the increased cost to them from the producers.

To match it, nearly all the establishments in Coquille which serve coffee yesterday increased their price per cup to ten cents.

Selectees For October 7 Call

Following is the list of young men, and their present addresses, who will be inducted into the U. S. Army service on Tuesday of next week:

Frank C. Peek, Coquille; Edward Smith, Bandon; Alfred R. Hiley, Bandon; Albert H. Cornelius, Coquille; Harold W. Wolvers, Marshfield; Vernon E. Shields, Bridge; Archie L. Clarno, Remote; Frank L. Spencer, Port Orford; Fred C. Zwicker, Coquille; Wayne F. Jennings, Remote; Cornelius Lynch, Bandon; Phillip Brack, Klamath, California; Arnie C. Houser, Sutherlin, Oregon.

Apple Tree In Bloom Now

Nearly every fall the Sentinel has some quirk of nature to report, an ocurrence which seems to indicate that she does not know what time of year it is in this southwest Oregon country.

This year it is a Gravenstein apple twig, about two feet long, to which eight blossoms cling. J. H. Kelley, who cut it from a tree on his place on North Coulter street, says that the last apple of this year's crop was just picked last week.

First Aid Class Doing Well, LeRoy Harrison Reports

LeRoy Harrison reports that the First Aid Corps is doing very well. At the last meeting the fire department gave a demonstration with the new gas masks and also showed the First Aid Corps how to use the inhalator, which was enjoyed by all.

Dr. Dehne, county health officer, gave an interesting and instructive talk on first aid work at last evening's meeting.

Mrs. Annie Robinson and Miss Bess [illegible] from their fortnight vacation trip to the south. They went and came home by stage, stopping at San Francisco a day going south and three days on the return. They were in Los Angeles, San Diego and got over to Tia Juana in the moonlight, and thoroughly enjoyed the whole time.

Mr. and Mrs. George Sherwood returned Monday from a weekend visit at Salem.

Red Devils Win Opener From Bandon Saturday

The Coquille Red Devils showed a lot of power in their first game of the season with the Bandon Tigers down there last Saturday afternoon, winning their game by the margin of one touchdown, 19 to 14. It wasn't the best high school game on record but it was interesting to watch, even though there are a lot of rough spots that will have to be corrected by Coach Leslie. One was the failure to cover pass receivers who got through or around the Red Devils line, and in two or three cases the Tiger would have been off to the races had he not dropped the ball.

The Tigers scored their first touchdown within four minutes, power plays and passes reaching pay dirt after a Red Devil had dropped the kick-off, Bandon recovering.

The two Bandon half backs, Uht and Smith, are about the hardest boys in the conference to stop and they will give all competition a great deal of trouble.

Coquille quickly scored its first touchdown after Bandon's, when they received the kick-off and marched down the field, the scoring play being a pass from Crouch, who played a whale of a game, to Irwin.

A blocked Bandon kick in the second quarter enabled 135-pound George Holbrook to slip through and across for Coquille's second score, the half ending 12 to 7.

The third and last Coquille score came in the third quarter, when Bob Martin carried the ball over after Crouch's pass to Tom Martin had been successful.

The last Bandon touchdown came just before the final whistle.

The line-up:

Coquille 19		Bandon 14
T. Martin	L.E.	Smiley
Terry	L.T.	Capps
Thommen	L.G.	Pepion
Moore	C.	A. McDonald
Winegar	R.G.	Conn
Gilbert	R.T.	Scott
Whereat	R.E.	D. McDonald
Butler	Q.	Fraser
Irwin	L.H.	Uht
B. Martin	R.H.	Smith
Crouch	F	Harris

Substitutions—Holbrook for Irwin, Hickam for Whereat. For Bandon—R. Harris for D. McDonald, D. McDonald for G. Harris, Jacobs for Capps.

Just What Is Wanted!

Well, well, well! A black-out of western Oregon is set for the night of Hallowe'en, Oct. 31. What wouldn't some of the oldsters have given for the opportunities the youngsters of today have!

Gas Masks Used At Tuesday Fire

The fire department was called to the Western Condensing Co. plant, at the north end of the river bridge, about four o'clock Tuesday afternoon when one of the condensors on the upper floor was smoking badly. The fire boys had to don their gas masks to get near enough to the machine to flood it with chemical.

The heavy pall of smoke east of town Monday and that evening arose from the Cal Ray logging camp near Fairview where the crew was burning slashes. The smoke was a gorgeous display of color in the valley just after the sun had set.

W. C. T. U. Report On Contributions For Year

Mrs. Pearl Cardwell, director for the flower mission and relief department of the Coquille W. C. T. U., submits the following list of articles given and kindness shown by the department for the year 1941:

Garments 191, plants and bouquets 145, leaves of Christian literature [illegible] ins 150, cards to the sick 48, calls on the sick 58, jars of fruit 87, cash $96.75, meals 64, two dozen eggs, two bundles white rags, two boxes of apples.

Rev. and Mrs. H. L. Graybeal came down Tuesday from Oregon City to visit old friends here and were overnight guests at the J. L. Smith home. They left again for the north yesterday.
