American Income Rises 30 Cents; Living Costs Up 8 Cents Over 1941

**PURCHASING POWER** 

THE above chart, showing how the average American fared in national income changes in the last twelve months is based on the monthly consumers' study of in-

The American Public in Decem-ber had a "real income" of \$1.30, or an increase of thirty cents on the dollar over the same 1941 month. This "real income" is not a sub-traction of cash income and expenditures but an average relative of these figures designed to show how living costs affect adjusted income

Cash income of the American public in December was \$1.40 for every \$1 a year earlier. This gain of forty cents on the dollar resulted from the following changes per dollar: wages up forty-seven cents, other income up thirty-seven cents, and salaries thirty-four cents on the dollar. Investment income at \$7 cents was down thirteen cents.

87 cents was down thirteen cents. Rents in December were up one cent over a year ago. Clothing was eleven cents and food was seventeen cents. Miscellaneous items were two cents higher than is December, 1941.
