FOOD IS VITAL for VICTORY

"Growers of food must increase production; consumers must conserve"

This states concisely the **VITAL** necessity confronting every section of the State of Oregon... both country and city. Food has become one of the most important weapons of war.

The farmers of this state are rallying to produce more essential foods in 1943 than ever before. This bank is glad to give public recognition to their important service and express its confidence that our "Farm Front will back up our Fighting Front."

We urge every citizen to cooperate by conserving the food the farmer raises and to prevent its waste

The Office Where Accommodation Is A Pleasure

THE OLD JUDGE SAYS...

"Looks like a pretty expensive cigar you've got there, Judge."

"Yesiree, it's a real good one, Bill. Won it from Chris down at the cigar store yesterday. He got pretty positive in a discussion we had and I had to take him up on it. Bet me three good cigars to my one that the three states that still have prohibition have less crime than the other states. Well, all I had to do was step across

the street to my office where I had some recent F. B. I. figures in my desk drawer. Why, on the average, those three states have a worse crime record than the whole rest of the country. And there's a good sound reason for it, Bill. There's no such thing as a dry community. It's only a question of whether liquor is sold legally or illegally. And when it's sold illegally it means bootleggers, gangsters and more crime."
