

Service Totals 432 List Of Men In

Sixty-two additional names of young men from Coquille and vicinity who are in Uncle Sam's service have been handed in since the partial list was published Feb. 25. Roy Morley and the Sentinel knew that list was not complete, and it still is not, but with the co-operation of those who know of names not included it eventually should be. The following are addition to the list published two weeks ago:

- Harry Aber
 - Robert W. Adams
 - Macy Anderson
 - James Avery
 - Richard B. Avery
 - John Cecil Barnes
 - Clyde Blaylock

Howdy Folks:

We have appealed to the motoring public many times to take better care of their cars.

The time has come that many cars are laid up due to no parts and lack of mechanics to do the work. Most of the repairs of this nature are due to lack of correct lubrication.

Take your car to a reliable lubrication man every 500 miles.

We are specializing more on motor service and adjusting of all kinds due to lack of parts for other types of repair.

new its vigilance. "It is requested that you take the necessary action to bring to the attention of the public generally the need for constant vigilance and attention to Civilian Defense training and preparedness.

"This letter is not intended to be a criticism of the efficiency of Civilian Defense, but rather to place emphasis on the importance of continued effort on the part of everyone connected with Civilian Defense."

Further warnings along this line were made last week by Major General U. S. Grant III, U. S. chief of the Protection Branch of the Office of Civilian Defense, when he made an inspection trip through the Oregon country:

"Victories in the South Pacific are no assurance that danger to the Pacific Coast from enemy air activity is past," asserted General Grant, pointing out that when American morale was at a low ebb, due to Japanese victories at Pearl Harbor and Bataan, Jimmy Doolittle's fliers dropped bombs on Tokyo.

"The greater the reverses suffered by the Japanese, the greater the danger of a morale-building raid on continental America," he said. "We must not be caught unprepared. The Pacific Coast must not offer another Pearl Harbor."

Following the inspection of Bandon Tuesday evening, Mr. Lundell, Mr. Shaw and R. L. Stewart made a partial survey of lighting conditions in Coquille. They found here, as they did in Bandon, that a relaxation had taken place in business houses, plants, and in homes, and that Coquille's streets lights have got to be further adjusted.

No colored lights inside a room are permitted, nor any light that can possibly cast a glow upward, nor is a ripple glass which is used in many stores and offices, a sufficient light deterrent. The ripple throws light up as well as down.

If the ruling on colored lights, even those red ones on juke box nickel receivers, should result in their banishment from eating places there are many people in Coquille who would rejoice.

Mr. Stewart and Marshal Jack Arnold made an inspection trip around Coquille last night to ascertain whether home owners are complying with dim-out requirements.

The officials are not making public all they may know, but they evidently are positive that this is not the time to relax in vigilance.

Rev. C. M. Guilbert Installed Sunday

Under a very good picture of Rev. Chas. M. Guilbert, former vicar of St. James' Episcopal church here, the Oregonian last Saturday published the item below in regard to his installation as dean of St. Stephen's cathedral in Portland. On Sunday, accompanied by a fine likeness of Mrs. Guilbert, the Oregonian told of the reception to be held this week for Mr. and Mrs. Guilbert, given by the ladies of the church:

Bishop Benjamin D. Dagwell of the Episcopal Diocese of Oregon will officiate at the installation service for Very Rev. Charles M. Guilbert as dean of St. Stephen's cathedral, S. W. 13th avenue and Clay street, Sunday at 11 a. m. at the cathedral.

Although Dean Guilbert assumed his duties in January, the cathedral chapter delayed the induction service until Bishop Dagwell could return from the east where he spent several months while convalescing from a severe bronchial illness. The bishop will be making his first public appearance Sunday since his return to the diocese this week.

A native of Mexico, Dean Guilbert was serving as vicar of St. James mission of Coquille and of other Coos and Curry county missions of the Episcopal church when elected spiritual leader of the diocesan cathedral in December.

Free Transportation Offered For WAACs

Women who wish to complete their enlistment in the women's army auxiliary corps and who live more than fifty miles from Portland are offered free transportation to and from the Oregon WAAC recruiting headquarters, announces Mrs. Mary Gilbert, volunteer women's army recruiting chairman for Coquille.

Colonel J. J. Fulmer, commander of the Oregon recruiting district, informed the local recruiter that this transportation policy has been adopted

to relieve the applicant from any expense involved in completing her enrollment. Meals and quarters are also furnished. Providing they are eligible for enlistment in the WAACs, transportation will be arranged for the prospective soldiers after filling out their applications here. The necessary materials can be supplied by Mrs. Gilbert.

She explains that applicants are required to go to the district recruiting headquarters in Portland for physical and mental alertness examinations. Those who qualify are also sworn in as soldiers at that point. Women interested in the opportunities for ser-

vices and training offered by the WAACs may secure further information from Mrs. Gilbert at Norton's Store.

Coffee-Wise

In coffee, it's quality rather than quantity that counts. That's why the coffee-wise are making that one cup of coffee per day offer the very best there is in coffee... flavor, aroma, inspiration and sheer taste joy.

BUYING COFFEE—Be sure to get the right grind for your coffee maker... **Regular Grind** for percolator or for boiling... **Drip Grind** for drip and vacuum makers.

MEASURE ACCURATELY both the coffee and water, and use standard measures for uniform results. We recommend 1 1/2 to 2 level tablespoons of coffee for each standard measuring cup of water. (A standard measuring cup equals from 1 1/2 to 1 3/4 dinner cups.) For best results, make pot at least two-thirds full. A clean pot pays dividends in flavor.

Percolator Coffee—Use either hot or cold water. Start timing when the "perk" begins and "perk" slowly for 7 to 10 minutes.

Brewed Coffee—Add coffee to cold water in pot or sauce pan. Let it come to a rolling boil, remove from heat and allow a few minutes for the grounds to settle. Strain and serve.

Drip Coffee—Preheat pot. Pour boiling water into top compartment, and allow to drip slowly. The dripping time should take from 6 to 8 minutes to obtain the peak of flavor and aroma.

Vacuum Coffee—Have water in lower bowl boiling before fitting upper bowl in place. Begin timing when the water rises and comes in contact with the coffee. Control the heat so that the coffee and water are infused together from 5 to 7 minutes.
