

### Meat Management Program Detailed

Action to place in Coos county the new Meat Management Program designed to prevent black market operations and to provide for wide distribution of meat supplies is being started this week under the direction of the County Agriculture War Board according to orders issued by Secretary of Agriculture Claud-B. Wickard.

Butchers, local slaughterers, livestock dealers and farmers will participate in this program which is designed to obtain adequate supplies of meat for direct war needs and to secure the control necessary for fair distribution to consumers through rationing. According to this plan, all slaughterers and livestock dealers will operate under a permit system beginning April 1 and the county board has been assigned the task of acquainting all concerned with the new program and of issuing the required permits.

Forms for use in connection with this program are now being prepared and all commercial slaughterers and farmers who are selling dressed meat should request a form at the Agriculture agent's office for use in applying for the permit which will be needed on March 31, 1943.

This program will not apply to farmers who slaughter meat only for consumption on the farm, but all farmers slaughtering any meat for sale must obtain permits and must operate under quotas according to these new regulations.

Commercial slaughterers and farmers who sell dressed meat in any amount must, through this program, obtain a permit before April 1, from the County Agriculture War Board at the county agent's office in Coquille. It will be required that slaughtering be done within month, or quarterly quotas, and each wholesale cut of meat must be identified with a number assigned to the permit. Rationing must be collected for all of the dressed meat sold and each operator must maintain adequate sanitary facilities.

Permits will also be issued to all persons engaged in buying and selling livestock, including dealers, agents selling on commission, and auctioneers. These permits will require an inventory as of April 1 and that records be kept of all transactions. Farmers are not required to obtain a permit to buy and sell livestock, but are expected to keep records.

Successful operation of the program will depend on the full co-operation of all livestock producers, dealers and slaughterers, according to John Carl, county chairman Agriculture War Board, who states further that rationing of meats cannot be effective if some of the supplies bypass the rationing program with the result that consumers in some areas get more than their share while those in others get none.

Coos county farmers have raised their share of the record production of livestock and the farm plans signed for 1943 indicate that they will maintain this production, but the meat producers on county ranches will not contribute to winning the war unless it is properly distributed and utilized Carl said.

### "Arabian Nights" Fine Entertainment At Roxy Sun. to Tue.

Hollywood magic reaches lofty new heights in Universal's "Arabian Nights" according to the flood of enthusiastic raves by critics who have witnessed initial showings of the new Technicolor innovation. The picture, presented by Walter Wanger Productions, comes Sunday, Monday and Tuesday to the Roxy Theatre and stars Jon Hall, Maria Montez and Sabu.

Rarely has any cinema venture been anticipated with livelier interest, and reports indicate that the picture will come up to every expectation. It is significant to note that advance announcements stress the adult entertainment element of the film, which would indicate that the full fascination of the original Arabian Nights tale has not been sacrificed.

**Adventures Revealed**  
The story, dealing with the romantic adventures of Sherazade, exotic dancer of Bagdad, moves swiftly against the vivid background of the Orient. Described as a gleaming panorama of desert warfare and slave conquest, the plot highlights the rivalry of two princely brothers over the affection of the dancer.

Maria Montez, glamorous Latin star, appears as Sherazade, while Jon Hall and Lelf Erikson portray the brothers who fall under her spell. Sabu is said to have his most colorful role, and others in the imposing cast include Billy Gilbert, Edgar Barrier and Shemp Howard.

Producer Wanger is declared to have assembled a multitude of Holly-

### Point Rationing Is Explained By Chairman J. A. Berg

(Continued from Page One)

their customers red one-point stamps marked "A" or "B" in change. Customers are reminded, in this connection, that they must use stamps they receive in change by the end of the month in which they are issued and before they expire—just as they must use the stamps in their own books.

As red stamps are declared valid, they may be used with complete freedom of choice by the housewife to buy any one, or any combination, of the foods for which they must be surrendered. There is no distinction made at all in the use of the red stamps as between meat and cheese, or any of the other foods for which these stamps are to be spent.

"For example," explained Mr. Berg, "a housewife who comes into the store with 40 points to spend from the ration books of her family, may spend all of them for meat, or all of them for butter or cheese, or she may, if she wishes, divide up her points, and buy butter and cheese, or margarine and meat, or any other combination of food she chooses."

Point values for the entire list of foods rationed in Coquille will be the same as in every retail store in the country—just as they are for canned goods. Point prices of different cuts of meat will be different, just as the point price of apricots and peas, for example, is different. However, there will be no difference in point price between different grades of the same cut of meat—nor between different grades of hard cheese, nor the same quantity of any kind of butter.

Many farmers, even those who operate on a very small scale, produce some of the foods included in the new ration program for the use of their families. Mr. Berg pointed out. Although the new plan places no official restrictions on the use of any of these foods at the farmer's own table, the government is requesting that farm families retain red stamps in their family ration books in an amount equal in point value to the foods produced and eaten at home.

A farmer who slaughters a pig he raised for the use of his family, for example, is asked to set aside point stamps equal in point value to the number of points he would have to surrender if he bought the equivalent amount of pork and pork products at the store. Similarly, if he makes butter for the use of his family, he is requested to keep in his book, and not otherwise use, the number of red stamps he would need to buy the same amount of butter.

When a farmer sells any of these home-produced foods, he must collect ration stamps from his customers, even if they are neighbors, on the basis of official point prices, and turn these stamps in to the Office of Price Administration.

"Farmers in this area," said Mr. Berg, will be instructed later on just when and how to turn in these stamps.

During the first five weekly periods, red stamps from war ration book two will become valid and will expire as follows:

Week	Red Stamps	Stamps
Beginning	Bearing Letter	Expire
March 29	A-(16 points)	April 30
April 4	B-(16 points)	April 30
April 11	C-(16 points)	April 30
April 11	D-(16 points)	April 30
April 25	E-(16 points)	(To be announced)

## Homemakers' Guide

**Five minutes earlier for your health's sake**

If cutting down on breakfast is a question of time, and it usually is, then set the alarm for a little earlier than usual and take time for a nourishing meal. Much of the preparation can be done the night before such as having table set, the batter with the exception of melted shortening mixed for hot cakes, waffles, or muffins, or having the biscuits in their pan and waiting in the refrigerator.

**PATTERN FOR BREAKFAST**—If your breakfast pattern has been upset by the rationing program, remember that this meal can still be a well-balanced one. Fruit, cereal, bread in some form and that one cup of coffee supply energy, vitamins, minerals, calories, and that grand satisfied feeling.

**FRUITS**—Whole fruits such as sliced oranges or baked apples are more filling and have more lasting qualities than fruit juices. Unstrained juices have the same advantage over strained juices. Vary the fruit in some way each day, and don't have too many repeats. For example, serve apples baked, as a sauce, or fried.

**CEREALS**—There's a kind for every taste. Vary them from time to time for interest, and alternate cooked cereals with ready-to-serve ones. Molasses, honey, corn syrup, maple-flavored syrup and fruits and fruit sauces add a pleasant change to cereals, and help the sugar bowl too.

**BREAKFAST BREAD**—Toast is the morning standby, but here, variety is welcome also. Serve toast plain, as French toast, cinnamon toast, or toasted jelly sandwiches. Enriched bread gives extra vitamins that we all can use.

Serve a hearty breakfast of
