Howdy Folks:

You know Folks, this idea of running ads. is usually to get more business; well it never was that way with us, and particularly since the rumor that there would be no more cars built until after the war. To me the handwriting was on the wall for I had tried nearly 20 years to educate people to preventive automotive service and it just wouldn't take. Now it is too late, for nearly every competent lubrication man has been called to service or other work. The few remaining mechanics are struggling with the vehicles that break down in their driveways. If there are enough motorists interested in preventive service, I, "Amzy," will explain and demonstrate how your cars can be saved from much destructive wear. Drop us a card, if interested, and a place will be selected for some Sunday, the time to suit the majority.

Your No. 4 Gasoline Ration Coupons expire Sunday, March 21 - TIME TO CHANGE YOUR MOTOR OIL, TOO! LET US GIVE YOUR CAR A COMPLETE SPRING CHECK-UP! It's only natural to think that less driving means you need pay less attention to your oil. Actually you should be even more careful! Your motor oil is exposed to dust and other contaminants carried through the air. And though oil lies idle in the crankcase, partially burned fuel particles constantly promote oil deterioration. Also, in short trips at lower speeds, your engine doesn't get hot enough to vaporize water formed by combustion and condensation. This further contaminates oil! Let your Shell man or Shellady change your oil every time you go to a new "A" ration coupon number. That's every 2 months. Then you know you're on the safe side.

"CARE FOR YOUR CAR FOR YOUR COUNTRY" Now's the time to have your car put in tip-top shape. Your Shell man or Shellady will drain dirty, winter-worn oil, wash crankcase and refill with correct grade of Golden Shell Motor Oil. They'll also give your car complete lubrication—which includes checking battery, radiator, fan belt, spark plugs, cleaning windows, polishing chrome. SHELL OIL COMPANY, Incorporated
