Busy Evening For Bachelor Girls

Dividing a dinner up into four courses and serving each at different places is one way to provide plenty of excitement. So it was at the progressive dinner enjoyed Tuesday evening by the Bachelor Girls. Mrs. Houston Makes Record Bond Sales

The amount of \$23,508.75 in war bonds and defense stamps to her credit in twenty-three days, is the record of Mrs. Fred Houston, chairman of this work in the Coquille Woman's Club. Mrs. Houston was one of the first to respond back in November during "Women at War Week" when local organizations were requested to aid in bond selling. She has continued right through the intervening months with no let up in her efforts. Mrs. Mel Johnson, of Marshfield, county chairman of "Women at War Week" last fall, when called on at the bond luncheon in Marshfield last Saturday, commented on the fine work done by Mrs. Houston at that time.

Coquille may well be proud of the work going on in all the women's organizations here. Mrs. Viola Newton, of the B. P. W., and Mrs. M. F. Pettit, of the Social Club of Eastern Star, have run high sales, as also have Mrs. Florence Hallock, of the Rebekahs; Mrs. Eva Stevens, for W. S. C. S.; Mrs. Laws for W.C.T.U., and Mrs. Alma Halter for the Coos County Extension club.

Mrs. Eleanor Wilson McAdoo, speaker last Saturday at the Bond Luncheon, said Coos county women have outdone the nation in their bond selling and are the best organized in the state of Oregon. Mrs. Albert Powers, Jr., of Marshfield, is county chairman.

Oregon Men On Torpedoed Ship

The following from Tuesday's Oregonian told about Oregonians on a torpedoed ship in the Atlantic. One of them was Kenneth Leatherman, of the Lee section, who is now at home on furlough. Following is the story as told to the daily's reporter:

Five Oregon men who were members of the crew of a Portland-built ship that was torpedoed in the north Atlantic recently are returning to their homes to tell about it. Among the Oregonians are Captain Charles Drury, Astoria; William Robinson, Portland, chief engineer, and Kenneth Leatherman, Coquille, ship's carpenter.

The entire crew was saved when the ship remained afloat 42 minutes after the torpedo hit, according to Leatherman. The vessel had made two voyages with war materials and was returning from the second when it was hit. After spending four hours in lifeboats, the crew members were picked up by a destroyer and landed at an east coast port several days later.

Leatherman, a graduate in anthropology at the University of Oregon, had been a carpenter for 2 1/2 years before he signed on the ship when it was commissioned here.

Extra Helper In Tax Department Praised By Court

The resignation of Catherine Trendall as a clerk in the tax office caused a vacancy which was filled by advancing Marie Clinton to the post at \$125 a month. Succeeding her is Helen Winegar, whose monthly stipend was fixed by the county court at \$120 per month.

In increasing the salary of Mrs. Emma Pierce, who has been extra help in the office for several months, to \$120 a month, the county court order, signed by three members of the county court reads, "Mrs. Pierce has worked several months as extra help and her salary is advanced to \$120. Mrs. Pierce's office experience and willingness make her a very valuable employee until after the new tax system is completed."

C. H. S. Band Concert Last Night

(Continued from page one) the department headed by Mrs. Helen Ayres, looked especially appealing. Perfect work was displayed done by first and second year typing students, form work by the bookkeeping department, a mimeograph machine on display with Ben Howe to demonstrate it, and drills on how to make out state and federal income tax reports all spelled something mighty practical. Fore-runner of all this was the work of Junior Business students, freshman business, under Mrs. Parrish, foundation for the advanced work.

Industrial arts under Mr. Paul Snider, made a fascinating display, which tempted one to spend all his time in one place. The instructor's own exhibits are reason enough for popularity of his department. Student work displayed was expert.

Home Economic Department, under Mrs. Dorothy Kemp, showed well-made garments and told their small cost, and tempting cakes displayed were almost too much to resist, in fact were repeatedly in danger of mysteriously disappearing.

Translation of nursery rhymes in English to Spanish was a hard assignment, but well handled by Miss Norris' students.

In general science, Mrs. Beyer's department showed splendid scrapbooks on display as well as intricate airplane models, and a most ingenious set of weather signals. Examples of beautiful Kodachrome prints and negatives and an enlargement of the Byers rock garden made from a Kodachrome were displayed. The Camera club dark room and work displayed here is a fine outlet and chance for a hobby. A lovely enlargement of the five months old grandchild of Frank Schram, taken and developed and enlarged by Frank Schram, Jr., a former student in the local high school, was displayed. A display of enlargements by Jim Bunch looked professional. No teacher had failed to contribute interest for the visitor, but mention is made of the departments most adapted to exhibition.

Any and all tax payers making the rounds last night visiting the class rooms, meeting the teachers and faculty personnel, listening to the marvelous music of the band, must have been impressed favorably and left feeling that all is well in our schools.

McCracken, Moore, Wiley and Anderson of the Red Devils were the speed kings of the meet, McCracken winning the 100-yard dash in 10.6 seconds and the 220-yard in 25.4 seconds. Moore won the 220 low hurdles in 25.6 seconds and was third in the 125 yard high hurdles.

Wiley won the mile in four minutes, 56.2 seconds, and Anderson won the 440 yard in 55.5 seconds; the 880 yard run in two minutes, 9.4 seconds, and was third in the 100 yard dash.

Alborn placed second and Hurst was third for Coquille in the javelin toss, which was won by West of Marshfield, who threw it for 168 feet, one inch, for a new county record.

Another county record broken was set by Kenneth Maine, of Marshfield, whose discus throw was 119 feet, 3 1/2 inches.

In the half mile relay Marshfield was first, Myrtle Point, second, and Coquille, third.

A former Coquille boy, Belloni, of Myrtle Point, was third in the mile run and fourth in the high jump.

Knew Where Home Was

The only name on the police blotter at the city hall this morning was that of J. Counts who forfeited \$10 bail after his arrest on April 24.

Another regular patron of the city jail knew where home was when in the condition in which he was and the police found him curled up on the bunk in one of the cells.

County Board of Equalization Will Meet May 10

The Coos county board of equalization, composed of Judge Felsheim, County Clerk Oddy and County Assessor Forrest, will meet on Monday, May 10, for their first session, to hear those who may wish to make complaints as to assessment of their property, and will meet from time to time as long as there are property owners who wish to be heard.

Roy District Enjoys Travelogue Pictures

A very fine treat was enjoyed by the pupils, teacher and patrons of the Roy school district last Friday afternoon, when Dr. J. R. Bunch showed moving pictures of his trip to Cuba, a winter sports picture, and one of the logging industry in Coos county. His talk along with the pictures was given in such a clear interesting manner the audience veritably felt they had taken the trip with him. A piano and accordion duet by Lillian Aber and Teddy Parrish was also enjoyed.

A great many schools in the larger systems teach by means of visual instruction and it is to be hoped it will soon be available to the smaller systems as the children who saw Dr. Bunch's pictures certainly learned more about Cuba and the United States than any study of geography or history could impart.

Dr. Bunch also remarked about the marked attention paid while he showed the pictures and the number of people who came to see them. However the attendance was much smaller than usual as a large percentage of the pupils of the district are out with either chicken pox or measles and several parents are employed during the day.

The school officials extend their

thanks to Dr. Bunch for a very instructive and enjoyable afternoon.

Auto Liability Insurance Not Compulsory
Under new law to become effective June 10, 1943. The safety responsibility act requires that any driver involved in an accident that results in injury, death or property damage must within 10 days present proof of \$11,000 worth of financial responsibility or have his driver's license and car registration cancelled. At any time afterwards his license and registration would be revoked immediately if his insurance policy expired or his bond was cancelled.
The act applies whether or not the driver was at fault, exception being allowed only in the case of a car legally parked at the time of the accident. After two years, if no damages are paid, no damages and no suit was brought against him, he would be permitted to drive and own a car again.
Now the average citizen would rather play safe and place insurance on his or her car than to take a chance with FATE. With a law like the above in force there is not much choice. **BUT IT IS NOT COMPULSORY.** The cost for \$15,000 insurance is not high. From \$14.00 to \$16.25 per year - depending on the kind of Gas Ration Book you have.
