Howdy Folks:

Did you ever have the wind let out of your sails right sudden?

A guy did that to us the other day. He said a feller who's allus blowin' his own horn ain't usually in tune with the rest of the world.

But we're going to blow it once more and let you know that when we tune your motor it stays tuned.

Drivers' Licenses Do Not Expire Till June 30, 1945

Oregon citizens who have current driver's licenses will not be required to renew them this summer, under a new law enacted by the last session of the state legislature and which becomes effective June 9, Secretary of State Bob Farrell said today.

Many Oregon citizens, thinking they would be required to renew their licenses after June 30 of this year, which is the expiration date printed on the card, are sending applications for renewals to the driver's license division, Farrell said. These people are being informed that the legislature extended the period the present licenses are valid to June 30, 1945.

As a result of this change in the law, drivers who now have a valid Oregon license, may operate on that till June 30, 1945, without paying additional fees or taking further examinations.

The W. C. T. U. Met Last Friday

Being missionary day all missionary societies of Coquille were invited to attend the W. C. T. U. meeting in the Pioneer church last Friday, at which time Mother's Day was observed, and an appropriate program was given.

Liston Parrish, minister of the Church of Christ, gave the devotional topic from II Tim. 4:1-13 and Acts 27:31, bringing the thought from Acts 27:31. "Paul said to the Centurion and to the soldier, except these abide in the ship we cannot be saved, our ship being Christ Jesus." He also gave some startling statistics, quoting, "God Bless America—America Bless God" by Rev. C. A. Cooper, director of World Wide Monthly Tract Club.

"Edgar Hoover laments a crime army of 790,000 boys and girls in the land. Added to this it is estimated that there are 800,000 prostitutes in the land. Sixty-five thousand girls are lost to this degrading vice each year, and 100,000 illegals children are born annually besides the 1,000,000 abortions; 18,000,000 persons are infected with social disease. Last year over 40,000 girls under 14 years of age became mothers. The sacredness of marriage is being antiquated with one marriage in every six ending in legalized adultery—we call it divorce.

"General Washington issued an order reflecting 'We can have Little Hope of the Blessing of Heaven upon our arms if we insult it by our impiety and folly.'

"The God of Individuals is the God of Nations; America must give account. Break off thy sins by righteousness if it may be the lengthening of thy tranquillity—Dan 4:27. This alone was a divinely authorized plan for national security in other days. It is God's plan for our day. America Bless God."

Those present were Mesdames Farr, Richmond, Cooper, DeNoma, Ellis, Couden, Laws, Peart, Billings, Harriman, Purvance, Kyle, Persing, Hol-verstott, Gormely, McCue, Fugelson, Chowning, Erickson, Coy, Geneveve Peart, Davidson, Evangelist Willie White and Liston Parrish.

New Employment Stabilization Plan

A temporary employment stabilization plan, effective as of May 13, 1943, has been announced by L. C. Stoll, Area War Manpower Director for Oregon. All essential industries and activities are covered by this plan which is immediately in effect in Oregon, but it does not in any way change the stabilization of workers in lumber, logging and non-ferrous metal mining.

Locally needed industries such as restaurants, laundries, and hotels are included along with agriculture and industrial war production activities in the new stabilization plan.

Under the new plan, a worker who is or was most recently engaged in an essential activity may be hired only:

1. For work in another essential activity and only upon presentation of Certificate of Availability issued by the employer or the United States Employment Service of the War Manpower Commission, or
2. Upon referral by the United States Employment Service. A worker who was most recently engaged in agriculture may be hired for work in a non-agricultural activity only upon referral by the United States Employment Service, but he may be hired for other agriculture work without regard to the restrictions set forth in this plan.

A Certificate of Availability means a written statement which shall contain only the worker's name, his Social Security Account Number, if any, the name and address of the issuing employer or War Manpower Commission officer or office, the date of issuance, and a statement to the effect that the worker may be hired elsewhere in an essential activity.

Referral means a statement issued by the United States Employment Service referring a worker to a specific job with a specific employer.

Workers are expected to remain on their jobs pending a determination on their request for a Certificate of Availability or referral.

An Essential Activity means any activity in the War Manpower Commission List of Essential Activities. Employers, locally, are advised by F. G. Scherer, manager of the Marshfield office, to conduct that office regarding any particular activity as regards its essentialities.

Certificates of Availability are not provided by the state to the employers, but a sample form may be had upon request from the local employment office.

Auto Liability Insurance Not Compulsory

Under new law to become effective June 10, 1943. The safety responsibility act requires that any driver involved in an accident that results in injury, death or property damage must within 10 days present proof of \$11,000 worth of financial responsibility or have his driver's license and car registration cancelled. At any time afterwards his license and registration would be revoked immediately if his insurance policy expired or his bond was cancelled.

The act applies whether or not the driver was at fault, exception being allowed only in the cast of a car legally perked at the time of the accident. After two years, if the driver paid no damages and no suit was brought against him, he would be permitted to drive and own a car again.

Now the average citizen would rather play safe and place insurance on his or her car than to take a chance with FATE. With a law like the above in force there is not much choice. **BUT IT IS NOT COMPULSORY.** The cost for \$15,000 insurance is not high. From \$14.00 to \$16.25 per year—depending on the kind of Gas Ration Book you have.
