The Salem Sampler

By Ralph T. Moore
Recruiting of labor in the mid-west for the lumber industry in southwest Oregon has been temporarily halted pending clearance from Washington. Plans to secure badly needed help were made recently under supervision of local and state WMC offices. But after the representative for the employers was chosen and had proceeded to Kansas City as directed, it appeared that headquarters in Washington had experienced a change of heart and that the way was not yet open to the official recruitment of labor for our lumber industry.

Mr. Stoll, WMC director for the lumber industry in the State of Oregon immediately left for Washington upon learning that there had been a hitch in the plans. With the assistance of Senator McNary, he has been trying to convince the WMC that our lumber industry is in critical need of this labor. To date of this writing no results have been accomplished. It is hoped that Washington will act before it becomes too late to help us during the 1943 logging season.

War events change so rapidly that what seems expedient one day may have to be revised the next. It is therefore probable that some change in WMC policy toward the lumber business has had to be made because of military expediency. And for reasons of secrecy neither the local WMC agencies nor ourselves could safely be informed until after danger of aiding the enemy has been passed. At any rate the recruitment cam-

pan is now held up in Washington in spite of earnest efforts on the part of both State and local WMC offices to open up a way to get us needed labor. It is yet possible that action can be taken soon enough to help build up needed inventories of logs at the mills for the coming winter. But the time is drawing short and unless a way is opened by the middle of June it seems unlikely that we can rely on having this help this season.

Information is leaking out from the Treasury Department to the effect that tax delinquencies this year will approximate ten million. This, if true, is a very serious matter and calls for immediate and drastic action to get the country on a pay-as-you-go basis.

Knowing of many delinquencies in our own community and learning of the considerable delinquency among farmers in the mid-west area, I never-the-less was greatly surprised and shocked to read of this very large national total delinquent taxpayers. Part of the blame is due to the system of paying taxes a year after the income is earned, which is completely out of gear with long established systems of paying labor, and part is due to the complicated and confusing tax return forms which baffle all but the better informed taxpayers. The fact that we are about to have some type of pay-as-you-go tax collections shows that this tax delinquency matter has jolted the administration off their firm stand against the Ruml theory of tax collection. It is imperative that prompt action be taken if the new system is to be established of July 1. Radio com-

ment would seem to indicate that the conference committee has arrived at an agreement and that the system would be put in effect by that date.

In Justice Bull's Court Past Week

Elmer Allen Miller was fined \$100 on Tuesday for driving while intoxicated. He is to pay at the rate of \$20 a month.
N. W. Smith, Donald W. Gilkinson

and John Floyd Peters, for being drunk on the highway, each paid \$9.00 fine and costs.
Walter Edward Tripp and Robert Marion Ward, for having overloaded trucks, paid \$9.00 fine and costs.
L. G. Zwicker, whose car had obscured vision, was not fined after he had the vision cleared up.
Chas. Vincent is to pay \$7.00 on each count on June 10. Inadequate brakes on his car and having no operator's license was the cause of his being picked up by the state police.

Auto Liability Insurance Not Compulsory

Under new law to become effective June 10, 1943. The safety responsibility act requires that any driver involved in an accident that results in injury, death or property damage must within 10 days present proof of \$11,000 worth of financial responsibility or have his driver's license and car registration cancelled. At any time afterwards his license and registration would be revoked immediately if his insurance policy expired or his bond was cancelled.

The act applies whether or not the driver was at fault, exception being allowed only in the case of a car legally parked at the time of the accident. After two years, if the driver paid no damages and no suit was brought against him, he would be permitted to drive and own a car again.

Now the average citizen would rather play safe and place insurance on his or her car than to take a chance with FATE. With a law like the above in force there is not much choice. BUT IT IS NOT COMPULSORY. The cost for \$15,000 insurance is not high. From \$14.00 to \$16.25 per year—depending on the kind of Gas Ration Book you have.
