Auto Liability Insurance

Under the provisions of the new state law, which becomes effective on June 10, it is highly desirable, from the autoist's point of view that his car be fully covered by Liability Insurance to make sure that, in case of an accident or collision, for which he may not be responsible, that the license of his car is not suspended, pending court action to determine where the fault lay.

Auto Liability Insurance Not Compulsory

Under new law to become effective June 10, 1943. The safety responsibility act requires that any driver involved in an accident that results in injury, death or property damage must within 10 days present proof of \$11,000 worth of financial responsibility or have his driver's license and car registration cancelled. At any time afterwards his license and registration would be revoked immediately if his insurance policy expired or his bond was cancelled.

The act applies whether or not the driver was at fault, exception being allowed only in the case of a car legally parked at the time of the accident. After two years, if the driver paid no damages and no suit was brought against him, he would be permitted to drive and own a car again.

Now the average citizen would rather play safe and place insurance on his or her car than to take a chance with FATE. With a law like the above in force there is not much choice. BUT IT IS NOT COMPULSORY. The cost for \$15,000 insurance is not high. From \$14.00 to \$16.25 per year—depending on the kind of Gas Ration Book you have.

Wool Growers To Meet Here Tomorrow

To discuss lamb and wool marketing and other factors of special interest at this time, livestock producers of Coos county will meet in the city hall in Coquille next Friday afternoon, June 18 at 1:30, with Harry Lindgren, extension animal husbandman from the state college.

This meeting is being arranged by George H. Jenkins, county agricultural agent, so that growers may have an opportunity of discussing marketing problems and making arrangements in advance for the sale of the 1943 crop. Effort will be made to develop a satisfactory market for feeders so that it will not be necessary to send lambs which are not fat to the San Francisco or Portland markets and all producers who can arrange to be present are urged to do so, Mr. Jenkins stated.

Some Cookers To Be Available

Word has just been received by the local USDA War Board that the WPA has begun allocating materials for the production of an additional 125,000 pressure cookers making the total for the country 275,000 instead of the 150,000 previously announced. The quota for Coos county has been set as 96 cookers. Persons interested in purchasing a pressure cooker should file application with the committee not later than July 1. While it is not expected that all cookers will be available by this date, the committee wants to have all applications on file by then so all may be acted upon at one time. This will eliminate the need for extra meetings by the committee.

The purchase certificates will be issued on the basis of probable output of canned food from the cooker. Homemakers who form groups that can assure a large volume of home canning from the cookers will be given preference.

Application blanks may be obtained from Mrs. Dorothy E. Bishop, county home demonstration agent, court house, Coquille.

PIMPLES DISAPPEARED OVER NIGHT

Yes, it is true, there is a safe harmless medicated liquid called Kleerex that dries up pimples over night. Many report that they had a red sore pimply face one night and surprised their friends the next day with a clear complexion. There is no risk. The first application must convince you or you get your money back. Join the happy Kleerex users who are no longer embarrassed with unsightly pimples. For sale by Barrow Drug Co.

The New Law

As Automobile Liability insurance is the best way to meet the requirements of the New Oregon Law, you should discuss this matter with us as we know insurance as well as the law.
