What You Buy With WAR BONDS

Free the Seas

Before we win the final battle with Hitler's Nazis all navy men are agreed we must win the battle of the Atlantic; that is to free the sea lanes of the German U-boats.

A year ago we were building 54 cruisers and nearly 200 destroyers or just about enough for a two ocean navy.

Now we have come to realize that this war is to the finish, "winner take all," and our Government is building a five ocean navy.

That is why we are being asked to increase our subscriptions for War Bonds. That is why we must do it.
