

Eleven Log Hauling Permits Cancelled

On recommendation of the State Highway Commission eleven special log hauling permits, involving the use of 20 trucks, have been cancelled by Utilities Commissioner George H. Flagg, as follows:

A. J. and N. C. Standley, Camas Valley, Oregon; J. D. Bryson, Roseburg; Hugh H. Honnen, Eugene; Harold O. Nichols, Reedsport; N. E. Gannon, Jr., Woodburn; Howard Jenkins, Myrtle Point; Manley Watson, Scottsburg; Alfred Baldrige, Reedsport; Donald Baldrige, Reedsport; Edwin Matten, Coquille, and Jack Baldrige and Ben Baldrige, hauling on the permit of the E. K. Wood Company, Reedsport.

Commissioner Flagg promptly followed the mandatory provisions of the act when the Highway Commission filed its recommendation. The communication recited that the haulers involved had been frequent offenders in overloading trucks to the point that safety of the highways and bridges was endangered. Overloads of from five to 25 tons were cited.

The losers in this battle with the law have an opportunity to renege in log transportation by convincing the Highway Commission that they will abide by the laws governing weight of loads, and recognize that protection of the state's vast investment in highways and their availability for the safe and rapid movements of troops is a prime requirement by the War Department.

How Air Warning Service Functions

The above schematic diagram depicts the complete action of the Aircraft Warning Service. The observer (1) sees a flight of aircraft and reports via telephone (2) to the Army Filter Center (3). The Filter Center reports and evaluates all observer reports and forwards the true course

and strength of each flight to the Information Center (4). The Controller at the Information Center, using the accurate "flight picture" as a basis, can order fighter planes to intercept any hostile target and can issue a warning to Civilian Defense agencies (6) and (7).

Timely Comedy Is 1943's Merriest Hit-- At Roxy Sun. to Tue.

If you were a girl living alone in a two-room apartment and found Joel McCrea taking a shower in your bathroom, what would YOU do.

That's only a small part of what happens to Jean Arthur in Columbia's "The More the Merrier," timely romantic comedy scheduled for its local opening on Sunday, Monday and Tuesday at the Roxy Theatre. According to advance reports, this NEW kind of movie also shows YOU what to do where there are eight girls to every man, how to make love with a thin wall between you and your sweetheart, what happens when you get caught reading someone else's diary and how to get married in a hurry.

Co-starring Jean Arthur, Joel McCrea and Charles Coburn, the latest George Stevens production has been hailed as one of the most delightful comedies to come from Columbia Studios since the Academy Award winning "It Happened One Night." Filmed against the background of ground of jam-packed Washington, "The More the Merrier," is all about a gorgeous Washington secretary who decides to rent her spare room.

Against her better judgment, Jean Arthur, as the secretary, permits Charles Coburn to take the room—but only for one week! Coburn soon learns that Miss Arthur is vaguely "engaged" to marry a minor government official who is bald and forty-two. Convinced that the girl is not in love with her fiancée, Coburn starts straightening matters out and sublets half of his room to young Joel McCrea, an engineer in Washington on business.

Overcome by Coburn's persuasive arguments, Jean finally consents to the arrangements and immediately enters on five of the most hectic days any working girl ever experienced.

Gems of Thought

DEFENSE

Wise distrust and constant watchfulness are the parents of safety.—Secker.

There is between my will and all offences a guard of patience.—Shakespeare.

Meekness excludes revenge, irritability, morbid sensitiveness, but not self-defense, or a quiet and steady

When the F. B. I. storms into the apartment investigating a rumor of Japanese spies, Jean is just about the most misunderstood girl in Washington. The Government agents don't understand; her fiancée fails to understand and even McCrea can't understand. Only Coburn understands and he promptly puts matters right to the satisfaction of all concerned.

Adapted to the screen by screen writers Robert Russell and Frank Ross; Richard Flournoy and Lewis R. Foster, "The More the Merrier" also includes Richard Gaines, Bruce Bennett, Frank Sully, Clyde Fillmore, Stanley Clements and Don Douglas in its cast.

maintenance of right.—Theophylact.

By desiring what is perfectly good . . . we are part of the power against evil, widening the skirts of light and making the struggle with darkness narrower.—O. George Eliot.

Scholars may quote Plato in their studies, but the hearts of millions will quote the Bible at their daily toil, and draw strength from its inspiration, as the meadows draw it from the brook.—Conway.

Tire Shortage Is Becoming Acute

A communication from the office of Price Administration in Portland says that that city has only a 60-day supply of Grade I tires and that Coquille is one of many towns in the state which is facing severe tire shortages. Quoting Rubber Director W. M. Jeffers, the letter says: "He wants car owners to know the exact situation. The tire supply in the Portland district is low, but need not be critical if the public will co-operate during the next 90 days and replace no tire when the one on the wheel will get by."

A total of 1,196 new synthetic tires had been delivered to Portland dealers by July 15. An increasing supply will arrive during August but it probably will be September, possibly October, before synthetic tires reach Portland to supply fully Grade I tire needs.

"Grade III used tire stocks in the Pacific area will last until about November," the rubber expert said. "Then the Rubber Director's office may face another brief period when we shall be put to keep A-bookholders going. 'Twilight tires' from the idle tire stocks which need boots or reliners to make them serviceable then may come into considerable use. But if there is any way to do so, Mr. Jeffers is determined to keep all cars rolling."

"Next year, 30,000,000 Buna-S tires will be manufactured, a supply ample to meet all needs were it not for the fact that most tires on wheels have been there since before Pearl Harbor."

Howdy Folks:

There seems to be a lot of excitement about Post war activities, Government, Social and Business. It seems timely thinking but until the white flags go up all over the World, our chief concern should be how we can best back up our boys in uniform.

Our move, "when the building is ready" is being made with the hope that we will be able to serve our patrons more promptly, which, in turn, gives them extra time for their cause.

How many would be interested in a monthly or quarterly check-over that will eliminate many major repair jobs?

A card from those interested will give us some idea as to whether we should spend any time planning such a service.

Playground News

(By Miss Page, Supervisor)

Have all you boys and girls attended the Playground? If you haven't, you have been missing a good time. Many children have attended the Playground every day this summer and have found interesting things to play with, have enjoyed visiting and playing with their playmates, and have lots of fun doing many different things.

The tournaments are always enjoyed. Come and enjoy competing with your friends in Croquet, Table-Tennis, Badminton, and Horseshoes. You may even be the winner and receive one of the prizes offered. The winners of the tournaments for the past week are as follows: Loren Steward—Croquet, Badminton and Table-Tennis; Leonard Homenyck—Horseshoes. Come! Enjoy the excitement! Remember you don't have to be an excellent player. Anyone may play who understands the games.

Boys, how many have built, or are building model airplanes or boats, or perhaps, furniture, or other things? Last Friday, the boys were invited to bring the things they had made; however, not many brought their models. Loren and Duane Steward received the prizes. Since some boys weren't finished with their models or hadn't known about the show, another opportunity will be given you Friday, August 21, to bring your models or whatever you have made. These will be greatly enjoyed. Prizes will be given for the best-built article.

Girls, here is an opportunity for you to show the boys and girls your most beautiful dolls. The doll show, which was formerly given, was greatly enjoyed. Remember, dolls from foreign countries visited us. Friday, August 13, bring your prettiest dolls. They will be displayed and voted upon. A prize will be given to the mistress of the most beautiful doll.

Tomorrow, Friday, children are invited to bring their lunches, and enjoy a picnic. It is always fun to eat and visit with your friends.

Another special attraction for this Friday is a program which will be filled with surprises. The numbers given are originally made up or planned for by the children. Attend the playground. Perhaps, you can do something for the program. Do you play an instrument? Come, and play it for us, or maybe, a band can be organized if enough come. Won't you come? You will enjoy playing and the children will certainly enjoy hearing you.

Don't forget the Playground. Fun and excitement are awaiting you.

Circuit Court Cases

July 28—Fay Brinkley vs. Paul Brinkley. Suit for divorce.
July 28—Helen Bernice Sherburne vs. Roy Sherburne. Suit for divorce.
July 28—Jimmie Hassen vs. Dora Erickson Hassen. Suit for divorce.

July 31—Hazel Ruth Maguire vs. Harry Maguire. Suit for divorce.
July 31—Genevieve Knokey vs. Howard Knokey. Suit for divorce.
Aug. 2—State Industrial Accident

Quinine Needed For Over There

Governor Earl Snell has designated the week of August 9-15 as "Quinine Week" and has issued a call to all Oregonians to check their medicine chests and, if any quinine is found there in bulk, pills or capsules, to contribute it to the National Quinine Pool to be used to combat malaria among our armed forces in the southwest Pacific and India.

"Oregonians, fortunately, have little need for quinine as ours is a malaria-free state, and we should be glad to have the opportunity to render this needed service to the boys who are fighting and dying for us at the battle fronts," said Governor Snell. "Casualties from action are serious enough. Therefore, let's do all we can to minimize the suffering and deaths incident to malaria. Japanese have captured the Dutch East Indies source of quinine but they have not captured the medicine chests of Oregon and the nation."

Every Oregonian is urged to make immediate search and deliver any quinine found to his neighborhood druggist. On August 16 the state Police, under direction of Superintendent Charles P. Pray, will call on every drug store in the state to collect the donated quinine for shipment to the National Quinine Pool in Washington, D. C.

Marriage Licenses

July 28—Vernon Leslie Trigg, of Norway, and Bernice Beryl Gillespie, of Arago. Rev. T. J. Pryor said the wedding for them at the Methodist church in Myrtle Point last Thursday.

July 28—Phillip Dale Crew and Juanita Smith, both of Powers. They were married at the Church of the Brethren parsonage in Myrtle Point by Marion M. Stern last Thursday.

July 29—Harold D. Timondig and Nellie M. Ammons, both of Marshfield. There ceremony took place in the Church of Christ parsonage at the Bay, J. R. Adams officiating.

July 29—Howard O. Hayes, of Marshfield, and Marjorie Doris Pittman, of Seattle, Wash. They were married at the Trinity Lutheran church at Marshfield on Saturday by Rev. Edward Eklof.

July 31—Leslie M. King and Betty L. DuPont, both of Powers.

Aug. 2—James Dukes and Eva L. Lortie, both of Myrtle Point. They were married by Rev. G. A. Gray at his home here on Monday.

Aug. 2—James C. White and Ethel L. Diedrich, both of Marshfield.

Probate Court News

Wm. Buck, of Marshfield, was last Thursday appointed administrator of the \$6,000 estate left by Oscar Gulovsen who died May 30, 1943. Appraisers named were W. B. Curtis, B. A. Olsson and Max Fairtag.

A new ear mold of transparent plastic for workers in noisy industries is custom-made to fit each worker's ear. It reduces the intense distracting noises, but lets the wearer hear people talking.

Commission vs. Alfred E. Roberts. Suit for divorce.

Aug. 3—Luta Beebe vs. Roy Beebe. Suit for divorce.

Old papers 5c a bunch.

THE real war is still ahead. Germany still holds all of Europe and part of Russia. Japan grows stronger by the moment, as Hirohito and his gang exploit what they have stolen in the Pacific.

We lost the first round, won the second. There are several more rounds to go. Our opponents are tough and know how to hit below the belt. They'll do it, too, if we relax our guard for a second.

"Even champs have been knocked out in the last round!"

It's tragically true that here on the West Coast we have been sitting back with a false feeling of security, just because things have been going better. That's exactly how the Japs want us to feel! That's when they like to strike, as they did at Pearl Harbor.

The fact is that as our victories in the Pacific increase, the danger of our being attacked in this area becomes greater.

Right now is the time to be constantly on the alert. That's why it is so important for you to volunteer for Aircraft Warning Service. There are several posts you can fill. The training is brief and interesting, after which you devote only a few hours each week to the vital job of keeping this area constantly alert.
