B and C Gas Ration Books Must Be Exchanged

All outstanding old type B and C ration books must be exchanged for the new type ration coupons before September 1, the district OPA reminded motorists today.

On September 1 the old type coupons become invalid and gasoline dealers cannot accept them in exchange for gasoline. Motorists can readily tell if they are now holding the new type, coupons. Old type B and C coupons are identified by the words "permits delivery of one unit of gasoline." New type B and C coupons carry only the words "Mileage ration," plus a large B or C depending on the class of ration. B coupons, as in the past, are printed in green ink, and C coupons in red.

Car owners can exchange valid old type coupons by applying to their local war price and rationing boards by mail or in person, the OPA explained, and new type coupons will be issued on a coupon-for-coupon basis.

A further new ruling, received by the local rationing board Tuesday morning, states that if the books turned in expire on or before October 15, 1943, the Board shall require the applicant to fill out a renewal form and issue the new ration as of current date.

If the applicant's book expires after October 15, 1943, the Board shall make an even exchange of coupons, with the new ration carrying the same expiration date as the old. No written application form used.

Holders of 100-gallon coupons must apply to the boards to have them exchange for regular coupons of the appropriate class—B, C, E, B or TT, or in the case of large users, for ration bank certificates. The one-gallon bulk coupons issued to members of the armed forces as a special fur-lough or leave travel ration will con-

tinued in use, it was explained.

WE
"FOREST FIRES - BANZAI!"

BANZAI is a Jap cheer that means "everything to the good." There's no need to tell YOU that Japs will cheer for big forest fires in our West Coast woods. Because fires stop logging (and we're short of saw logs now!). They form daytime smoke screens and sky glow at night. Fires require valuable man-hours to get them under control... man-hours that should be devoted to getting out timber. So be on the alert! Report every fire... at once. Just call central. And above all, warn your friends to be exceptionally careful of matches and cigarettes in the woods. Nine out of ten fires start through carelessness.

VOLUNTEERS WANTED FOR AWS DUTY
One of the greatest civilian volunteer organizations to come out of this war is the Aircraft Warning Service... the airplane "spotters" who stand guard night and day. The forest industries salute them... they can and do prevent enemy "fire-bombings." You are invited to join this patriotic group. Inquire at your local defense organization.
