From where I sit...

by Joe Marsh

Sam Abernethy's the Chief Rumor-Spiker in our town. If a stranger gets off something like—"I hear they've sunk the S. S. Bumblebee," Sam starts pinning him down. Did he really see it? Where's the evidence? Because Sam knows, like the rest of us, that nine-tenths of the "inside news" passed around by careless folk isn't rumor—it's lies planted by the Axis to destroy American morale. Take those rumors about drinking in our Army Camps.

Actual, official facts from the government's own Office of War Information showed there wasn't a shred of truth in 'em. The boys enjoy a glass of beer occasionally—same as a lot of us do! And from where I sit, they're proving themselves the healthiest, best-disciplined bunch of fighting men in history, like the OWI report stated. That's good enough for me.
