C. of C. Stresses Need Kenneth C. Hultin Of Heating Plant In **Community Building**

At the meeting of the Chamber of Commerce board of directors, in the hotel Tuesday noon, a communication from the Kaiser Shipbuilding Co. at Portland, was read, telling of the in-tention to name tankers turned out up there for places of historical interest in Oregon. "Champoeg" is to be the name of the first one this month and "Coquille" was designated as the twelfth on the list. The shipbuilding company asked to be given data and facts about the early Coquille history for the christening occasion and J. P. Beyers was apsemble and transmit such items as vould be interesting.

shipyard this coming Saturday, Oct. 9. Bullards.

Mr. Beyers was also asked to establish, if such a thing is possible, tablish, if such a thing is possible, from historical data, the origin of the name "Coquille." It is a moot question and whether anything more definite than has already been published many times, as to the reason for the name, can be dug up is doubtful. The most likely reason for the selection of the name is that there was a tribe of "Coquelle" Indians in the Coos section, and that Indian word was the origin and was later changed to the Coquille (pronounced Ko-keel) by the early French settlers.

There was discussion as to the re-fusal of the War Production Board to grant the city a permit to buy a heating unit for the Community Building, and Mayor Wood was requested to take it up with the office in Portland where previous indication had been given that the project would

be approved.

The floor and building will deteriorate rapidly this winter if there is
no heaf there and all civic organizations are to be requested to bombar the proper authorities with talegranging the vital 'need of protect the building with heat before winter rains set in.

The only other business transacted was the allowing of a bill for lumber for enlarging the boat house at the city docks.

"This Is The Army"

"This Is the Army," the motion cture which is being shown all over the United States for the Army Relief Fund, which is for the benefit of the widows and orphans of Army men killed in this war, is to be shown at the Roxy Theatre here on Wednesday, Oct. 20.

Frank W. Martin was named as Coquille ticket sales chairman by Major Cody, who called him from Portland yesterday, and he is to be assisted in the sale by Mrs. Jack Dolan, C. M. Gray, Wm. H. Barrow and J. E. Axtell.

All proceeds from the sale go to the Army Relief Fund and all seats are to be reserved, with three prices scheduled—\$3.30, \$2.20 and \$1.10.

Blind Performer nterests Students

One of the most interesting programs given at a high school assembly here in a long time was that yesterday morning, given by Rose Resnick, a blind graduate of the University of California. It was an educational program featuring the Braille system of instruction for the blind, and the lady rendered a number of ment besides giving a demonstration of how she taught her dog, who displayed unusual canine intelligence.

County Canney To Close Tomorrow

Tomorrow, Friday, Oct. 8, is the last day on which the Coos County Cannery at the county farm will operate this year, and no one will be able to get any canning done, even by doing the labor as has been the practice this year, after tomorrow. The season for canning fish, fruit and vegetables is about over anyway so no one will be hurt by the closing.

Those having canned goods at the county cannery should call for them this week, before Saturday.

Baby Born To The Cliff Gulseths At San Diego

Cliff Gulseth yesterday wired Mrs. Gulseths parents, Mr. and Mrs. R. E. Matney, from San Diego where he is in the Marine Corps, "Rose and baby boy feeling fine. Born 6:30 this morning."

The young man missed by one day being born on his mother's birthday, which was October 5.

An announcement received from Capt. and Mrs. H. F. Beadner announces the birth of a son, weighing six pounds, four and a half ounces, at Alamogordo, New Mexico, where he is stationed, on Sept. 21. The young man has been named David Louis. Mrs. Beadner is the former Due to the need of deer skins and Irene Sandon, daughter of Mrs. L. P. Fugelson of this city.

Councilman Stark unable to be present, the city council held a short session Monday evening. Following the transaction of all business on hand, Recorder Leslie was given a course in reading, the material being furnished by Claire Gray and Murl Pettit. Probably the draft and army experience recital in one of the communications, and the operation ex-perience told in the other, could have been secured for publication but the Sentinel's suggestion is that any one who wants to get a laugh ask the councilmen mentioned for a copy.

One of the bills allowed was for \$50.90 for 25.45 acres of land neat the Rink creek reservoir, the last piece needed to make all the land on that watershed city owned. The total acreage now owned by the city there is about 300. This last tract at \$2.00 per acre, was secured from the Menasha Woodenware company, and is quite a bit less than the \$1400 for 20 acres adjoining this piece, which the city bought some years ago in developing its source of city water

A communication was read from the War Production Board office in Portland, denying the city's applica-tion to purchase a boiler and heating units for the Community Building The denial was a form letter and the ouncilmen expressed the hope that a personal visit at the board's office and an explanation of how vitally necessary the heating plant is for the protection of Coquille's hands and valuable community building will bring a reversal of this first

Coquille Unit **Red Cross Notes**

Coquille Red Cross, No. 764, will hold its regular work meeting on Friday, Oct. 8, from 1:00 to 4:30 p. m., in Guild Hall. There will be various kinds of work provided for everyone who attends, so please come prepared with your scissors, thimble, knitting needles or crochet hook, No. 1, if possible, according to the type of work you wish to do, says Mrs. B. D. Kes-ner. There will also be block cutting, pressing and filling sewing kits for those who prefer it.

More large-eyed needles are still needed and use can be made of many more 10, 11 or 12 inch squares cut from good parts of old Turkish towels. These will be used as wash cloths. They may be turned in as they are, or may be simply crocheted around the edges and can be white or colored.

This week the ladies thank Mesdames E. Hook, Hall and Rodgers for a fine collection of wool materials and yarn.

At present the workers are in-(sewing kits). These items are needed in large quantities by our service

The yarn sent recently is to be made up into V-neck, sleeveless sweaters and gloves. "I sincerely hope your knitters will accept yarn for gloves as it is necessary that we knit 18 pairs within a short time," states Mrs. Kesner. Mrs. Alborn will be happy to keep anyone in need of assistance and directions are provided for both sweaters and gloves.

More new Red Cross workers are eeded in order to avoid putting too heavy a load on the regular workers as the unit is now required to complete certain articles promptly in order to fill quotas by specific dates. So if you are not now doing Red Cross work, won't you lend a hand to help our boys get these requirements promptly. For any further informa-Bard Kesner, 163M, or call at 290 E. S. W. Motors Adds

Southwestern Motors here is just completing the instalation of new precision equipment which makes it one of the best equipped garages and automobile service plants in southern Oregon, and there are no better in the state

This new equipment, which has been installed in their display room. where it can be watched from the street windows, is a Bear frame straightening and axle adjustment piece of machniery which can do pretty nearly everything but talk. After an auto is placed on the rack. powerful jacks can take out any bent or sprung condition of the frame and axle irregularities can be quickly corrected. It also aligns knee action for the easiest and best in steering, to give the maximum tire mileage.

Another part of the equipment will straighten any kind of sprung wheels, and a Bear wheel and tire balancer is the latest in balancing equipment and its use will add many miles to the life of any tire.

In the safety lane, in addition to the brake and steering tester, the shop now has a headlight tester by which the lights can be absolutely adjusted to the requirements of the state law.

Southwestern Motors now has 25 employees here and two more will be added soon to handle the new equipment.

From now on there will be nothing in the line of frame, body, engine, lighting, or other automobile correction needs that cannot be handled promptly and efficiently by Southestern Motors.
