THE OLD JUDGE SAYS...

"Somethin' special catch your eye in the paper, Judge?"

"Sure did, Chet... an article here telling about prohibition in India being written off by the Madras government as a dismal failure after a three-year trial. They found out that enforcement was ineffective and that there was a steady increase in bootlegging and other violations of the law which increased penalties failed to check."

"It all goes to prove what I've said time and time again, Chet... prohibition does not prohibit. It's been tried in this country 47 times in the last 33 years and discarded everywhere except in three states. Was found to be a failure and abandoned in Canada, Norway, Sweden, Finland and Russia, too."

"Same thing happens every time... as soon as legal liquor is voted out, bootleg liquor with its crime and corruption moves right in."

FERN FIRES are FOREST FIRES

Of 62,000 acres of Douglas fir forest land burned last year, over 50,000 acres were early fern fires!

NO PERSON would knowingly start a raging forest fire. Yet fern fires actually are forest fires... because their searing heat kills young trees instantly! Literally thousands of acres of prospective future forests are destroyed in this manner every year.

Nature grows bracken fern on logged-off land to protect young Douglas fir

seedlings from the hot sun. The little trees can usually be found under the fern mass. Fire in patches of dead fern do not destroy the fern roots... they come back, fast! But fire kills the tree seedlings and destroys the soil building value of dead fern. So fern fires actually destroy both plants and soil... all that remains is barren land. **Guard against fern fires!**

FREE TREES

FARMERS: You may get Douglas fir seedlings FREE for planting on fern patches and woodlots, just by calling at the forest industries tree nursery, Nisqually, eight miles north of Olympia on the Pacific Highway—at the foot of the long, straight hill. These seedlings are two years old, tall and strong. Schools, women's clubs, Boy Scout troops, home owners, may also have fir seedlings FREE for the asking. Look for the highway sign—WEST COAST TREE FARMS NURSERY.
