16 Billion Sought In 4th Bond Drive

Henry Morgenthau, Jr., Secretary of the Treasury, announced Monday that the Fifth War Loan will start on June 12, and run to July 8. The goal will be \$16,000,000,000, of which \$8,000,000,000 is to come from sales of bonds to individuals.

"In the Fourth War Loan," the Secretary said, "individuals invested \$5,300,000,000. In planning to get \$16,000,000,000 of the Fifth War Loan's \$16,000,000,000 goal in individual sales, we are asking more than ever before from the American people. Fifth War Loan goals were set high because the nation's treasury must borrow a great deal of money this year to keep the war going. We will need more than twice as much as we can expect to get in taxes."

"Since January 1, 1944, the direct costs of the war have exceeded \$23,000,000,000. With the critical phases of the war still ahead of us, certainly no decline in expenditures is now in prospect. For this reason the \$16,000,000,000—all of which is to be raised from investors other than commercial banks—is urgently needed."

The Secretary pointed out that the major emphasis throughout the entire period of the drive will be placed on the quota of \$6,000,000,000 for individuals.

During the period from June 12 to June 26, only sales to individuals will

be reported by the Treasury, although subscriptions will be received from all non-banking investors during the entire period of the drive. The campaign to sell to individuals will be supplemented starting June 26 with an intensive campaign to sell other non-banking investors—the quota for which is \$10,000,000,000.

Several monuments in the Coquille cemeteries need re-setting and it should be done before the monuments fall, and before Decoration Day. I do that kind of work and also necessary cement work around the lots. John S. Sanders, 541 W. 6th, phone 123L.
