

## Oregonians Endorse Work Of Sen. Holman

### Citizens Praise Results Gained For This State

Portland, Ore. (SPECIAL)—The following quotations from letters are typical of hundreds received expressing appreciation of Senator Rufus C. Holman's effectiveness at the nation's capitol:

"I have witnessed your fights in our own state for the Oregon National Guard, and later in the United States Senate your fearless stand for adequate appropriation for our defense forces. You have truly been a champion."

#### NEW OREGON INDUSTRY

"I hasten to extend congratulations and sincere appreciation on behalf of the people of Oregon for the splendid work you have done in securing for Oregon the alumina clay plant."

"You are doing a commendable job in protecting the interests of the Pacific Northwest as well as the war effort."

"We have been dealing for the past twelve years with Oregon senators and congressmen in Washington and never have we received such smooth cooperation and rapid handling of our every request for information and action."

"I want to congratulate you heartily on the successful outcome of your effort to obtain increased forest fire appropriations. This was a hard, fighting chance, but you took it and have won out. We are all indebted to you."

"May I express my sincere thanks to you for your interest and support given this recent deficiency appropriation bill to provide maternity care to wives of enlisted men in the armed forces."

"We take this opportunity of extending to you our thanks for your assistance which made it possible for us to secure tin plate to continue packing carrots, which could otherwise have gone to waste in this locality. We had been trying for weeks without any success until we called upon you."

#### TURKEY GROWERS SAVE

"Thank you for your efforts in behalf of the turkey producers of our state, as this means a saving to them of several hundred thousand dollars."

"People like and respect you for your independent and forthright position on the vital problems that are facing the country at this time."

"It is a pleasure to know that when some emergency like this arises that we have representation back in Washington that is able to produce results."

"At this time we want to thank you on behalf of the industry and the farmers for your efforts in seeing that the irrigation equipment was included with other farm equipment." (For priorities)

"I am sure that your resolution asking for a full and complete investigation of Federal regulations governing the distribution and sale of meat, poultry and dairy products will meet the universal approval of the growers."

#### FARM PROGRAM AIDED

"I want to express our appreciation of your great and effective help with regard to agricultural appropriations affecting the extension and research programs of the Land-Grant Colleges. Thank you for your assistance."

"Your activity in the Forest Fire Protection Appropriation is being very well received in the Pacific Northwest. You are doing yeoman service in this field. We are very appreciative of your interest in Extension matters. A number of land grant colleges have indicated their appreciation of your interest."

"It is nice to know that we have representation in Washington that understands our problems here."

Original letters containing these quotations may be seen at the "Holman for Senator Committee" headquarters, 408 Wilcox Building, Portland, Oregon.

Names of signers not published here as these were unsolicited letters written to Senator Holman during his present term.

Pd. Adv. Jerry Saylor, Sec. "Holman for Senator Com." Wilcox Bldg., Portland, Ore.

## Bare Facts From Bear Creek

### "The Column that's Different"

(By Lans Leneve)

Jess Gilmore was killed in an accident at the Moore Mill at Bandon last Thursday morning. The news shocked this entire neighborhood, where Mr. Gilmore was well and favorably known. Until a few months ago he resided on Bear Creek and then moved to Winterville Heights. A few months prior to his untimely demise he sustained a broken ankle while working at the same mill where he met his death. We can truthfully state that Mr. Gilmore was one of the most likeable persons of our acquaintance, possessing a charming personality. He was always cheerful, and while hobbling about on crutches, with the broken ankle, he was over-flowing with good humor. We feel his loss a very personal one. He is going to be missed, not for a short time, but for years to come, for it is hard to replace such an outstanding man in any community as the deceased. Our heartfelt sympathy is extended to his bereaved family.

The extent of John Heffley's injuries have finally been learned. A bone was shot away for a space of several inches in his right arm, during a torrid engagement in the South Seas. Awarded the Purple Heart, John is now back in the U. S. but must remain several months in the hospital before regaining the full use of the injured arm. It is such cases as his, as well as other brave lads who fall in battle, that serves to increase our hatred of the d— Japs.

Last week Chas. Leach of Bear Creek was called to his old home in Nebraska by the death of a brother.

Septic sore throat and bad colds still prevail in this district but are gradually decreasing since the advent of good weather.

Spring fever has finally taken hold on "The Crick." Most everybody is engaged in digging in their gardens. Or are they digging angleworms?

The Harrington-Ray camp on upper Bear Creek, which has been engaged in falling and cold-decking all winter, started hauling last Thursday morning. The logs are dumped in the Coquille river near the Prosper road.

That was a thoughtful gesture of the Coquille Police Department sending us that mammoth bird dog awhile back. The main trouble was the fact that no red stamps or tokens accompanied the huge gift and the big fellow ate like a horse. But he solved the problem by chewing his leash and vanishing and, evidently, being picked up by some dog lover. The big mutt was a likeable fellow and we are hoping he found a good home. The only trouble is that he is likely to eat himself out of it, unless it is a slaughter house or black market concern.

Clarence Gatchell, active in A.F.L. organization work, accompanied by his wife and daughter, stopped at Bear Creek last week, while enroute down the coast.

There is an abundance of hogs now, feed is high and the price of pork as paid the farmer is extremely low. We are wondering why the New Deal crowd doesn't declare an open season on them and boost the price of bacon? Well, the people would have the money to purchase it; that, no doubt, is the reason they don't. And, too, they are "gunning bigger game now days, both small business enterprises and managers of mail order concerns. But they have never found a big enough gun to "pot" Harry Bridges or to stop John L. Lewis.

Our weekly proverb is by Carlyle: "Make yourself an honest man, and then you may be sure there is one rascal less in the world."

The Coos Bay Times, a New Deal paper and avowed lover of Roosevelt, takes a crack at The Oregonian in a recent editorial. Sort of reminds us of a flea taking a bite at a St. Bernard.
