

Bare Facts From Bear Creek

"The Column that's Different" (By Lane Lettve)

Election day, Mrs. Arthur Morrison, a member of the Parkersburg election board, after attending to her duties for an hour, was taken suddenly ill and was rushed to the hospital at Coquille. Frank Flinn was sworn in to take Mrs. Morrison's place on the board.

There are many democrats who are not New Dealers, in fact many of them refuse to vote for Roosevelt for the 4th term. Those persons sure must have been stumped when they looked at their ballot election day. Practically every candidate represented on the demo ballot wanted to "ride with Roosevelt" or The New Deal, to final victory. There was one slogan that really struck our funny bone, that of one of the delegates to the democratic national convention. It read: "No Dark Horses, No Deals, No compromises, Roosevelt all the way." That "no deals" business is what got our goat—with Roosevelt all the way.

Mrs. August Herman informs us that Jackie, her daughter, is recovering nicely from a recent minor operation. That's pleasant news to us.

Mr. and Mrs. John Haffley returned to Bear Creek last week. John is recovering from a severe wound received in action in the South Pacific, as has been noted before in this column. We are mighty glad to welcome this fine lad back to Bear Creek.

"Squeaky," the store cat, known to all our customers, has disappeared.

Howdy Folks:

Did it ever occur to you, that in order to do satisfactory work on a machine, your cars and trucks in particular, that a mechanic must be familiar with them.

You all know Carnation's contented cows give sweeter milk; so—why shouldn't contented mechanics do a better repair on your car?

There are five of us, all productive workers, sharing in the returns. We all own homes in or near Coquille.

"Squeaky" was an unusual feline, being taught tricks when a very small kitten. He would jump several feet off the floor through your arms, would "speak," roll over and retrieve objects thrown for him. He was a revelation to many who thought a cat couldn't be trained.

A story from the northern end of the county comes to us, which we consider interesting. It was sent us by a friend from Marshfield and was given him by residents of the Ten Mile district: Mr. Schuepelt, who resides near Lakeside, owns a ranch near a small lake, which is leased to a near relative. This family have quite a number of chickens roaming about their ranch. One of these fowl met an untimely and very unusual death recently. It appears that a couple of planes were engaged in target practice some five thousand feet about the ranch. After the planes had flown away, a chicken was found dead in the yard near the house. Beside it lay an empty cartridge—50 caliber—bearing mute testimony as to what had caused the demise of the fowl. The empty shell had fallen from one of the planes and "bagged" the chicken. Nice huntin'!

The attorney general of California recently made the statement that if our boys in the service did not quit sending home firearms captured from the enemy that "our efforts of fifty years in disarming the public may have proven futile." Almost at the same date the German police informed all Hungarians not friendly with the Nazis, to turn in their firearms under penalty of death. There's not much difference between the two incidents so far as we can see.

More Students In C. H. S. Next Year

Aside from allowing the usual grist of bills last Thursday evening the directors of School District No. 8 had practically no business to dispose of. A letter was read from Mrs. Mulkey, county school superintendent, stating that the directors of the Non-High School Board had accepted the offer of the Coquille School Board to transport pupils from the Coaledo district to Coquille and back, at \$125 per month.

Another district which is to send its pupils to Coquille High next year is the Riverton Union High School, No. 3, its directors having decided, as a war measure, to close the high school there the coming year. Another reason for the suspension was the burning, some months ago, of the gymnasium there.

The No. 3 union high school district will pay the cost of transporting the pupils as well as the per capita cost per pupil for their tutelage, to S. D. No. 8.

Conservation Farm Trucks Talked

Farm trucks and pickups should be conserved in every possible manner if transportation facilities are to be available to transport milk and other commodities to processing plants and shipping points was the conclusion of those who attended a farm transportation conference held in the city hall at Coquille last week.

The conference called jointly by representatives of the Office of Price Administration, the Office of Defense Transportation, the Agricultural Adjustment Agency and the Agricultural Extension Service was attended by farm transportation committees of Coos and Curry counties, representatives of War price and Rationing Boards and local maintenance men.

Speakers at the meeting included Fred Sinn, OPA; C. C. Proctor and Howard Strode, ODT; A. N. Bodtker, AAA; Paul Carpenter, Extension Service, and George Burr, local Repair and Maintenance Committeeman. W. E. Cross, chairman of the local Transportation Committee, presided at the meeting.

Down on the Farm

Boy am I busy these days! But that don't matter, I'm glad to be at work on the farms, milking the cows, raising the chickens, grinding feed, sharpening tools, heating water, cooking and hundreds of other jobs which help out the labor shortage.

I'll help out wherever I can and keep right on going along around the clock for Victory.

Studebaker Champion rates high with busy Federal law officer

HERE'S a letter from Frank M. Durance of Orlando, Florida who says: "My 1941 Studebaker Champion has been driven about 150,000 miles—at the lowest maintenance cost of any car I've ever owned. Whether across the county or across the nation, this dependable Studebaker is always ready to go on a moment's notice. Its gasoline mileage is consistently high and its materials and workmanship are the finest."

Yes, these war days, the tire-saving, gas-saving, soundly built Studebaker Champion adds new luster to its reputation from coast to coast.

It's no wonder that used Studebaker Champions, Commanders and Presidents are in such big demand everywhere.
