

Bare Facts From Bear Creek

"The Column that's Different"
(By Lans Leneva)

While it may grow rather tiresome glimpsing the picture of Mr. Avery being forcibly carried from his office in Montgomery Ward's concern—for we see it almost each time we pick up any publication—it is nevertheless, we believe, a good picture to keep constantly before the public. For nothing could more plainly show the encroachment upon our liberty, freedom and rights as American citizens as are being practiced by the present administration. It pictures Gestapo methods in full action—a smear upon American history.

Two of Jim Jenkins' milch-cows died suddenly last week of some mysterious ailment; other animals are sick in this vicinity and the dairymen are baffled as to the cause. Search of the pastures has disclosed no wild parsnip which was thought at first to be the cause of the animals' deaths and sickness.

We believe this is a good time to ascertain the attitude of various candidates to the higher offices regarding their stand relative to the Japanese in this country. Those who do not express themselves in full favor of deporting the yellow scum after the conclusion of the war, should be snowed under at the general election, regardless of what political party they belong to.

Our old friend, Tom Hull, is back at his old job dumping logs for the logging trucks that dump their cargoes in the Parkersburg district. Joe MacDonald, of Bandon, is associated in the same work with the Harrington-Ray Logging Company on Bear Creek.

Bear Creek was well represented at the horse show held at Coquille a while back. There are a lot of fine animals here on "The Crick" and their owners expect to "bring home the bacon," at the big show July 4th.

We are glad to note the steady improvement of Mr. Tichenor, time-keeper of the Harrington-Ray Company, on Bear Creek. He has been suffering a session with his heart for many days. Here's hoping he is soon back on the job.

Jack Giffen, recently enlisted from here in the Navy, is reported ill in some port up north.

Well, Spring has finally arrived; early gardens are doing well—everyone has the smell of onions upon their breath, that's why we are sure of the fact.

We had to "dim out" the Japs in the Pacific before we could turn on our lights on the coast.

See you all next week—until then, keep on hoeing the Victory garden and buy more War Bonds.

Oh yes, we note where army officials are investigating the shooting of a Japanese-American resident of the Tule Lake segregation center. We

trust that the marksman is decorated. And, our weekly proverb, by James Freeman Clark: "A politician thinks of the next election, a statesman of the next generation."
