

### Bare Facts From Bear Creek

"The Column that's Different" (By Lans Leneve)

Recently there appeared the picture, in several dailies of an American girl and a Japanese who were to take the vows of wedlock. There should be a law enacted forbidding the intermarriage of the white and yellow races. Such a marriage as described above is a disgrace to American womanhood, and such pictures appearing in newspapers abroad are bound to have a far-reaching effect. It causes our allies, as well as real, red-blooded Americans to wonder how easily people can forget Pearl Harbor to such an extent that an American girl can take one of the "monkey men" for a mate.

Mr. and Mrs. Morris Ray were Bear Creek visitors over the fourth of July. Mr. Ray operates a large stock ranch in the eastern part of the state. He was formerly interested in the logging camp now operating on Bear Creek.

One of the outstanding social events in this vicinity was held at the Schieman ranch last Wednesday evening. Some forty or fifty guests, together with their host and hostess, participated in outdoor entertainment and a "hot-dog" feed, cooked in the open.

Mr. and Mrs. Len Culver and son, Morris, spent last week-end and stayed over the 4th at the home of Frank Culver near Bear Creek. The visiting Culvers reside in Eugene.

We read with interest the story of the old rooster at Coquille taking one good look at the big blimp and falling over dead. We do not doubt the story, for here on Bear Creek all the dogs chased it as far as they could see it and when it flew over here, evidently mistaking it for a huge frankfurter. The rooster evidently figured that when "hawks" that large fly about, it was time to die.

It is with the deepest regret that we note the passing of Captain Wm. Panter of Bandon. Captain Panter always steered a true course with his river boats on the Coquille river, just as he steered a true course through life, acquiring many friends along the way. He outlived the usefulness of the boats he steered and for many years after enjoyed a life of leisure, combined with pleasant memories, surrounded by relatives and friends, until the Great Reaper finally took a hand and chartered the old captain a course upon the river that leads into The Great Beyond.

### When Your Back Hurts - And Your Strength and Energy is Below Par

It may be caused by disorder of kidney function that permits poisons to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood. You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and uneasy urination with smarting and burning is another sign that something is wrong with the kidneys or bladder. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

### THE OLD JUDGE SAYS...

"Judge, I've had a lot of calls for that book you took out last week... 'Tell the Boys Back Home'. How did you like it?"

"Fine, Sarah, fine... it's just the kind of book I like to get hold of... I enjoyed every word of it. Wish I could have been along with the author myself... actually living with the men right on the fighting fronts. He got mighty close to them and they certainly opened up their minds and their hearts to him."

"There were lots of new things in the book I hadn't seen in any other reports from front-line writers. But there was one question the men asked the author that I have seen time and time again in these stories. That was 'Are you going to put prohibition over on us soldiers again... and without getting our vote?'"

"I noticed that, too, Judge, and I think the least we can do for those fighting men who are doing so much for us is to respect their wishes on that subject."

## FARMERS TOO HAVE POST WAR DREAMS

## All Electric Future

### IN STORE FOR THEM!

The wonders of an all-electric farm will some day be revealed to the world. And what a boon to the farmer! His working hours will be cut in half, because electricity will help him do all the chores so much faster than the farm hands. The time he saves can be used profitably, for the farmer of tomorrow will be spending time in his testing laboratory, determining ways to have more and more successful crops per season.
