Ralph Milne, tournament chairman of Coos, brought 22 well-instructed golfers over and it was rumored about that those instructions were to take home a scalp which they did but they can't expect to keep long for the Coquille club intends to get it back and something extra when Coquille Valley visits Coos next Sunday.

### School Four Days For Teachers

Beginning August 2, four days of school will be held for teachers in Coos county.

The first two days will be held in the Washington School, Coquille, and on Friday and Saturday in the Roosevelt School, North Bend.

Dr. Martha L. Addy and Miss Ida Mae Smith will be the instructors, the former in the advanced section, and the latter in the lower.

Dr. Addy has recently come to the State Department of Education from the Eastern Oregon College of Education to serve as head of Elementary Education in the absence of Florence Beardsley, who is on a one year leave of absence while employed by the Federal Government. The other instructor, Ida Mae Smith, has for many years been an Assistant Professor of Education and a Supervisor of Primary Education in the Oregon College of Education.

At noon, the teachers will enjoy a pot-luck victory garden lunch. In addition to their contribution to the pot-luck, teachers should bring their own eating facilities.

Two days of school are held in each of the two places for the convenience in transportation, and are duplicated in program. The schedule is planned primarily for elementary teachers but administrators and teachers in town schools would no doubt benefit therefrom.

Many teachers have been unable to go away for Summer Sessions because of home responsibilities and have found this a splendid means of brushing up. Last year, fifty people attended one of the schools and more than forty attended the other.

The days will be spent largely in discussing improving the teaching of the fundamentals and the appearance of the class room and teacher.

### ATTENTION! ALL HOME CANNERS!

Before you begin your 1944 canning, Good Housekeeping Magazine advises you: use the boiling-water bath method for tomatoes and fruits, only. Can all vegetables except tomatoes by the correct use of a pressure cooker to be sure of killing botulinus germs. In the last few years, cases of botulinus food poisoning have cropped up in widely different parts of the country. Buy, borrow, share a pressure cooker—but don't can low-acid vegetables any other way. If you want further information, write Good Housekeeping Magazine, 959 Eighth Avenue, New York 19, N. Y.

### Delay in Lamb Shipping Advocated

Shipments of lambs from Coos county by the Livestock Marketing Ass'n have been delayed during the past week due to a heavy run on the market which has caused a reduction of approximately three cents in the market value under that which was paid to growers two weeks ago, according to directors of the association.

Commissioners who have been handling the sales in the South San Francisco market have recommended that shipments be temporarily delayed until the large number of lambs received there during the past two weeks have been disposed of. According to present plans shipments will start again during the first week in August and growers who have lambs ready to go are used to send the information to the marketing association in care of the County Agent's office.

Some of the better lots of lambs included in the first shipments sold as high as 14 1/2 cents per pound, with poorer lots going at lower prices. Growers are urged to select the larger and fatter lambs when arranging shipments at this time and reserve the smaller ones until later, unless they are unusually fat.
