Howdy Folks:

In August issue of Reader's Digest, page 109, is an article, entitled, "The Curse of the Gobbledygook," which is True, Brother, True.

It applies to many businesses such as ours, too! We could go on at great length telling customers the ails and needs of their cars and then, in a few words, tell you it needed a tune-up, a rebuild or a motor rebuild.

I well remember when motorists from Coos county drove to cities to pay enormous prices for such salve.

John Ingram Gets Bravery Award

Among the 42 soldiers with the Second Infantry Division in France, who performed outstanding acts of bravery during the advance in Normandy and who were awarded the Bronze Star for gallantry in action, was Lieut. The group was composed of five officers and 37 enlisted men. Among them were infantrymen, medical men, artillery pointers and communications men, all of whom were cited for bravery under fire which involved complete disregard for their personal safety.

Maury Williams stationed at Hamilton Field, California, writes that he recently returned from a 15,000-mile trip to the South Pacific by air. "I made the trip in connection with my work as an instructor in the Ground School of the Air Transport Command. The things which impressed me were the ease, speed and safety of travel by air, the importance of air transportation in this world war No. 2; also the fine job and the great credit due the men who are fighting the war in the South Pacific under obstacles which must seem almost insurmountable at times. I was also impressed with the many helpful activities in which the Red Cross is engaged in this area for the men in the service."

V-Mail Letter From Mark Seeley In Europe

Mark Seeley writes from Europe, whether he is still in England or over on the continent he did not say, that his brother, Dr. John Seeley, is in England; Everett is probably in France, and Linus' last letter, written June 10, indicated that he was in a hot spot in the Pacific theatre.
