

Bare Facts From Bear Creek

"The Column That's Different" (By Lans Leneve)

"Skippy," the little dog belonging to Jessie Gilmore, of Winters Heights, was a friendly little fellow. He was understanding, too, for seeming to sense the fact that Mrs. Grover Haga, Jessie's sister, was at home alone with her small son, since Daddy went off to war, Skippy, played his way between the two residences, a distance of a couple of miles, dividing his time and devotion between the two families. But Skippy's doggy devotion and self-assumed duties are ended. His four feet will no longer pad the roadway between the two residences. He met death beneath the wheels of a car a while back. Skippy always tended to his own business, never chased cars, always was friendly to the extreme. We wonder if the driver of the car was tending strictly to his driving? Too many drivers fail to take the proper precaution when passing both people and animals. And after all a dog means a lot to his owner, for "greater love hath no man."

The Japanese have pulled a hunger strike at Tulelake. Thirteen American-born Japs refused to eat because they were isolated from the rest of "the rats," owing to the fact that they, the American born ones, were trouble makers. It is a very noticeable fact that in practically all the up-risings hunger strikes, sabotage plots in which the Japs have taken part, that it has always been the American-born ones who were at the head of such affairs. It would be a fine idea if every Jap in America went on a hunger strike and stayed on it until he died of starvation. It would be a downright blessing to our country.

We just cannot bring ourselves to believe the fact that there is just one man in all America who is the only one possessing brains enough to be president and to be able to cope with conditions following in the wake of the present war. Such a supposition appears to us to be naught but pure ignorance.

Jack Giffen, formerly of Bear Creek, is now in training at Treasure Island. He writes concerning the explosion of the two munition ships and states that the shock of the explosion was very distinct at Treasure Island, a distance of forty miles from the scene of the disaster.

A friend writes us from Paulina Lake that there are many anglers there, in spite of the gas shortage. There are cars from Los Angeles, even. This proves the fact that the black market is still on in full swing. We are pretty sure of the fact that a war could never be won with the gas that is sold the motorist today.

It is unlawful to offer fire-crackers for sale in America today but there are still six cent war-time cigars on the market. What's the difference?

We are wondering if there could possibly be any relationship between F. D. R. and the late William Jennings Bryan? Both "silvery-tongued" orators and both h— for runnin' for public office. The only thing that poor old William lacked was all the country's money and the New Deal, to back him up. With such backing, we are predicting that F.D.R. will run the fifth, the sixth and even the seventh time, if he lives that long.

It is with sorrow and regret that we mark the passing of another fine, old friend, Alex McLeod, who met death by drowning in the Umpqua river recently. He was known far and wide for his generous nature and it can truthfully be stated that he was actually one of those men who possessed "a heart as big as a ham." Always friendly, success never changing him in the least, loyal to friends to the extreme, his was a friendship well worth acquiring, and though saddened by his untimely death, we are grateful to the extreme in having had Alex McLeod as a friend since our kid days.

Kidneys Must Work Well

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headache, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended by country doctors. Doan's Pills are the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Doan's is better. Use with confidence at all drug stores.

DOANS PILLS

Arango News Items

A new "Champion" in invasion warfare

STUDEBAKER WEASEL

BUILT BY STUDEBAKER . . . POWERED BY STUDEBAKER CHAMPION ENGINE

YOU'LL hear a lot more about this agile new Allied personnel and cargo carrier as our invasion armies roll deeper into Europe. . . Born of war's needs—brainchild of the Office of Scientific Research and Development, the War Department and Studebaker engineers—the Weasel is being manufactured by Studebaker under contract with the Ordnance Department, Army Service Forces . . . It's Studebaker-built—and it's powered by the famous Studebaker Champion engine . . . Officially designated the M-29, it was soon nicknamed the Weasel. And like a weasel it is—in-steady and swiftness—in sure-footed movement on practically any kind of terrain.

Scene on the sands of Normandy beach—June, 1944.

STUDEBAKER ALSO BUILDS WHIRLWIND CYCLOPE ENGINES FOR BOEING FLYING FORTRESS—MULTIPLE-DRIVE MILITARY TRUCKS—OTHER VITAL WAR MATERIAL
