**"17 Babies this week—and he hasn't seen his own grandson!"**

TONIGHT the Doctor was hoping to finish early, so he could take a two-hour train trip and snatch a look at his new 4-day-old grandson. But no—the phone caught him again. So now he's off to deliver Mrs. Johnson!

Doctors have always been 'round-the-clock men. But since Pearl Harbor, with half of our physicians in the armed forces, each civilian doctor is more in demand than ever. He is on call today to an average of 1700 people.

Your doctor's minutes may be lifesaving time... too precious to waste. Help him save time for people who need him urgently, for yourself in an emergency, by remembering these four helpful things when you are ill:

PHONE HIM FIRST. Tell him as clearly as you can what's wrong. Let him decide whether he should come to see you, or you should go to him.

GO TO HIM whenever you are able. House visits take lots of your doctor's time—time when someone else may really need him urgently.

KEEP YOUR APPOINTMENT promptly, don't postpone it; make it at his convenience, so that he can plan his crowded hours better.

FOLLOW YOUR DOCTOR'S ADVICE to the letter—so that your trouble doesn't drag on, get complicated, or need extra attention from him.

SAVE YOUR DOCTOR'S TIME IN WARTIME!
