

Lieut. Bill Pook Home And Married

First Lieutenant Wm. R. Pook, who had been in Australia and New Guinea for two years last April, arrived in San Francisco last week, from which point he called up his parents, Mr. and Mrs. F. A. Pook, telling them he had to take a detail of men to Fort Lewis, before coming home.

Again Monday afternoon he called and said he and his fiancée, Miss Helen Austin, formerly teacher in the Myrtle Point schools and more recently teaching in Corvallis, were to fly on Tuesday to Pocatello, Idaho, home of Miss Austin's parents, where they were to be married. They expect to be in Coquille next week.

Bill just recently received his commission as a first lieutenant and does not know where he may be assigned to duty when his furlough is over on Sept. 28. He has seen lots of action on New Guinea the past two years and, if censorship rules permitted, could probably tell a lot of interesting stories about Jap warfare in the South Pacific.

The Sentinel joins their hosts of friends in Coos county in extending congratulations to the newlyweds and wishes them every future happiness.

H. E. Watkins Receives Navy Medical Discharge

H. E. Watkins, who was back in the Coquille valley earlier this month for a short stay, expects to leave the Naval Convalescent Hospital at Yosemite Park, Calif., where he will receive his medical discharge from the Navy, Aug. 25. He will return to Coquille and join Mrs. Watkins, who has been here since the 12th with their daughter, Jean.

Mr. Watkins is very anxious to get back to Coos county, thinking that he will get over the malaria, which has afflicted him, sooner here than anywhere else. Whether they will return to Arago or not will not be decided until his return.

Geo. Gratke Has Flown The Pacific Several Times

Mrs. Chas. Stauff has received a letter from Geo. Gratke, formerly with the bank here and who is now stationed at the U. S. Naval Air Station at Berkeley, Calif. He said he was kept very busy, a lot of the time being spent in the air, and that he "has made several trips across the pond." He also said he had been able to get to San Carlos to see his mother and sister who reside there.

Bridge Soldier Earns U. S. Citizenship Under Fire In Italy

With The Fifth Army, Italy—Having proved devoted to his adopted country by deeds rather than words, Private First Class Donald Bryant of Bridge, Oregon, was sworn in as a citizen of the United States at a special ceremony somewhere behind the Fifth Army front in Italy recently.

A member of the 88th Infantry Division and with it since opening of the big drive last May, Private Bryant was called back from his duties at the front to receive his coveted certificate—and praise from Lieutenant General Mark W. Clark, Fifth Army Commander.

"America now belong to you and you belong to America," General Clark told him. "During the long years of peace which lie ahead, your devotion to your country must be just as spirited, and aggressive as it has been during your campaign with the Fifth Army in Italy."

Former Coquille Boy On 50 Bombing Missions

The following dispatch from Oakland, Ore., to the daily press concerns one of three brothers who were employed in the Smith Wood-Products plant here a few years ago, and his friends here will be interested in reading of his bombing flights over Nazi-held portions of Europe:

First Lieut. Clyde Bennett, son of Mrs. Charles Mabie, Oakland, Ore., pilot of an Italy-based B-17 Flying Fortress, completed his 50th daylight bombing mission against the enemy on July 4 in an attack on Romania.

On this mission, a large formation of bombers from the Fifteenth AAF set fires and caused explosions among Hitler's gasoline storage tanks and oil refineries. But, in recalling his toughest mission, Bennett states it was "flown over the German Messerschmidt fighter plane production center in Austria in May, 1944. Fighter squadrons of the Luftwaffe arose in force to try to prevent destruction of the plants. As many as nine fighters abreast attacked my groups at a time."

Bennett graduated from Mapleton high school in 1936. Before entering the armed forces in March, 1942, he was employed by the Boeing Aircraft corporation in Seattle.

Letter From Captain Lloyd E. Haynes, In France

Mrs. Eleanor Brown, of Portland, permits the Sentinel to publish the letter she recently received from her brother, Capt. Lloyd E. Haynes, son of the late Mrs. Leona E. Foley, and who grew to manhood in and around Coquille and has many friends here:

Somewhere in France Sun., July 30 Landed here shortly after D-Day and you can guess it's been an experience of a lifetime. Believe me, I don't want to go through it again. At present I'm in charge of a large petroleum dump. We supply, of course, to Army units and the supply must never cease. Another officer and I live in a dugout, with a timber and dirt roof for shrapnel and close escapes but so far haven't been hit.

The war news seems a bit encouraging but most of us here don't look on a very bright side of the news because we don't want to be disappointed. I'm enclosing some invasion money. A franc is worth 2c. Thought the kids might get a kick out of them.

Pat McKeown Is In The South Pacific

Pat McKeown, first class torpedo man with the Navy, who saw action in Africa and around the Mediterranean, is now somewhere in the Pacific. He wrote his mother and sisters here that he had recently been on land, it was an island at that, for the first time in five months.

Red Cross Items Sent From Coos County

Shipped to Red Cross warehouses for redistribution to the armed forces and to military hospitals, from Coos County Chapter, American Red Cross, from January to August 10 of this year, were the following sewed and knitted articles made by ladies of Coos county chapters:

750 Kit bags
750 Housewives, or needle cases.
432 Kit bags, apron style, filled with comfort items such as soap, book, shoe laces, writing paper, envelopes, playing cards, cigarettes, razor blades, hard candy, pencil, and polishing cloth.

1,539 Articles of hospital sewing, including pneumonia jackets, bath robes, bed jackets, hospital shirts, pajamas, bedside bags, etc.
25 Completed layettes have been sent, a project for the wives of services men in need of such a service.

All these articles were made from materials bought with the money which you gave to your Chapter of the Red Cross. In addition, there were a total of donated articles, made for the most part from reclaimed materials. These included 112 afghans or lap covers; 1,216 pairs of scuff slippers, and 787 wash cloths, some new, but mostly made from worn-out bath towels. All these things go to military hospitals.

231 Lend-lease garments.
A total of 414 knitted garments were sent to the armed forces in this period and 246 knit articles to military hospitals, such as bed socks, stump socks, knee bands, and toe socks.

These shipments totaled 2,171 pounds for this period.

"All this work was done by a small percentage of Coos county women. Think how much more work could be done if all the women with time and the ability to sew or knit, would really make a serious effort to do their part in this national emergency!" says the Red Cross chairman at Marshfield.

Miss Skeels Delights Rotary Listeners

Miss Marvel Skeels, of New York, was a guest of the Rotary Club at their noon luncheon meeting on Wednesday and, accompanied by Mrs. M. O. Hawkins at the piano, sang three solos in her most delightful manner. Her selection of songs were "Old Re-frain," by Fritz Kreisler; "Bitterness of Love" and "Ma Lindy Lou" and the continuous applause showed the appreciation of her listeners.

President Jess Barton read a letter from District Governor Shannon, of Seattle, who visited here recently, expressing his appreciation of the courtesies shown him at that time.

Arrangements were completed for the stag dinner at Laurel Lake on Thursday evening.

Other guests present were J. H.

Rubenstein, of Eugene, and Fred Hart, of St. Louis, Mo. both officials of the R. E. A.
