Mr. and Mrs. Lloyd W. Claver left on a ten-day trip to Los Angeles last week to see his uncle, Pat Claver, who had called that he wanted to see him on business. Mrs. Mae Harvey, mother of Clarence Shoemaker and who was a frequent visitor when Clarence resided here, was in Coquille Tuesday. She is now living in Newport, Ore., and said she had recently returned from Washington, D. C., where she spent several months with her son and family. She expressed the same thought that Mrs. Shoemaker does in her letter, elsewhere printed, that the former Oregonians want nothing better than to come back to the west coast.

Mr. and Mrs. Thos. Hutton arrived in Coquille last week from Minnesota for an extended visit with their son, Glen C. Hutton, and wife. It was the first time Glen had seen his parents for 18 years.

Miss Helen Ann Shaw, daughter of Mr. and Mrs. F. M. Shaw, who came home from Medford where she had been in the office at Camp White, expects to leave next Tuesday for Fort Ord, Calif., where she will have a civil service position in the office.

Orchid Leis Come To Coquille From Hawaii

During the past week two Coquille ladies have had the thrilling experience of receiving orchid leis, fresh and beautiful, by Clipper from the Hawaiian Islands. Mrs. J. L. Smith received hers a week ago from her son, Don, who has been in the Islands for two years.

On Monday Mrs. Muriel Dae Ardath also received one from Bob Jarger, formerly of Coquille, but now a Seabee stationed in Hawaii. Both leis were made of the small butterfly orchid, not a hot house variety, but exquisite and dainty in size. Mrs. Smith's box also contained a large hot house orchid.

HEAT DETOUR

Seems six year old Andy Thomas Leonard's mom sent him to the meat dealer to exchange a can of used fat for some of those very valuable red ration points during one of New York's hot spells. Although Andy knows that fat will be used for bullets to make it hotter for the Axis he couldn't resist this nice cool street spray.

Constance Talmadge, former movie star and now the wife of Col. Walter Gihlin, does her war stint by working as dietician's aide for the Red Cross. She is shown weighing used fat at a well-known New York hospital before it is turned in for salvage. Used fat is an essential ingredient in the manufacture of munitions, medicines and other vital products.
