THE OLD JUDGE SAYS ...

"The more I read about it, Judge, the more ! realize the tactics and requirements of this war are as different from the one I fought in 25 years ago as night is from day.

"Yes, and I can give you an example of how true that is, Fred. In World War I the chief uses of alcohol produced for war purposes were found in smokeless powder, medical supplies and chemical warfare materials. In this war the need for this product is far more vital because it is also used as a fuel to propel torpedoes, to make shatterproof glass for airplane windshields and instrument covers, to make lacquers used in camouflaging equipment and as a base for synthetic rubber needed for tires, gas masks, paratroop equipment and dozens of other things,

"Every time I think of it, Fred, I realize how fortunate we were in having a beverage distilling industry in existence when war broke out...ready and eager to convert 100% to the production of this critically needed war product. I'm mighty sure bootleggers wouldn't have been of much help.'
