

B. & P. W. Club To Start Activities

Some special feature will be introduced following business meetings in the future.

Liquor The Cause Of These Troubles

Two sailors from North Bend were arrested by the state police on Sunday and were taken before Justice Fred Bull where they were charged with stealing a car in Marshfield. They were under the influence of liquor and told the J. P. that they took the car in order to go to the fair. In lieu of the \$2000 bail set by the judge they are now in the county jail. They have waived preliminary grand jury hearing and say they are ready to plead guilty and take their medicine.

Two others whose names appear on the blotter in the sheriff's office on Sept. 4 were Fred Moulton and Jos. E. Frye. The former was charged by the state police with driving while intoxicated. His bail was set at \$100 and he posted it and was released.

Frye's bail of \$15, for being intoxicated on the public highway, was also put up and he was released.

Still another in the county jail, from Friday until Monday, was Walter John Judson, brought up from Bandon as the result of a family row. He was charged with threatening to commit a felony. The order for his release was received from Justice W. Haynes at Bandon on Tuesday.

Those present were LeAnna Powder, Colleen Walsh, Dixie Rose, Yvonne Davidson, Margie Travis, Nonie Travis and Shirley Connarn. Dolores' father, Pvt. Franklin DeCosta, who was home on furlough, was also present at the party. Games and refreshments were enjoyed by all.

School Caution For Auto Drivers

Calling attention to an upward trend in traffic accidents involving children under 14 years of age, Secretary of State Bob Farrell today urged drivers to increase their caution when driving in the vicinity of schools as the fall term opens this month.

So far this year, fatalities among children under 14 years of age are 26 per cent greater than for the same period last year, Farrell said. Child injuries have increased 52 per cent.

A great proportion of the accidents in which children are killed or injured occur when the child dashes out into the path of an approaching car, the secretary of state said. For that reason, he urged drivers to anticipate that possibility when driving past areas where children are observed.

"As school opens, the school safety patrols will be in action again," he said. "Drivers must cooperate with

these patrols in the interests of protecting younger children as they cross the streets. When the patrol members signal that the intersection is occupied, slow down and stop if necessary to yield the right of way."

Patrol members do not direct traffic, the state official explained. They hold younger children at the curb till there is a lull in traffic. Then they send them across and at the same time, signal that the intersection is occupied. Upon observance of the patrol's signal, the motorist is warned of his obligation to yield the right of way to pedestrians occupying a cross walk.
