

Expect This Fall To End It In Europe

Mr. and Mrs. Harry L. Aber received another letter this week from their son, Leo, who is in France with a bombing crew. He has just been promoted to technical sergeant and has had many narrow escapes but so far has come through without a scratch, although on one of their recent missions their craft was hit all over with flak.

Leo writes that the men over there believe the conflict in Europe will be over this fall.

His mother says Leo is not squandering his pay for every letter home brings funds which they are saving for him.

Staff Sgt. Johnny Montelius Wants To Come Back

The following letter was received this week from Staff Sergeant Johnny Montelius, who is now stationed at Camp Van Dorn in Mississippi:

Should have notified you some time ago on my change of address but thought I would cadre from here long before this. This camp is the poorest example of an army camp that I have ever stayed in. I'm trying my best to cadre out from here.

I was in charge of mess but was relieved of late and now I am a soldier of leisure and no responsibility. Sure enjoy reading The Sentinel and when it runs out will want you to notify me.

Hope this war will be over soon so I may return to Coquille in the near future. Certainly miss the many friends and the wonderful scenery of the state as a whole.

Have visited many points of interest in the south since my arrival. New Orleans, Natchez and Baton Rouge are the main points of interest. This certainly is the typical Old South in this part of the country. Hope to make a longer visit to New Orleans soon.

Don't know if I will see any overseas service but understand those who haven't been across will go first. May be located in nice camp soon. Here's hoping and wishing it will be on the west coast. It's tops as far as I'm concerned.

Am sending my very best wishes to all my friends in Coquille and surroundings. Johnny.

YOU CAN'T COUNT on new tires keeping you on the road because new tires for everyone are still a long ways off. What you get to make the most of is the tires you have now. So... follow these rules and you'll ride. Drive only when necessary and share your car. Keep under 35. Keep inflation up to recommended pressure.

Avoid hitting holes, stones or curbs. Avoid sudden starts and stops. See us for periodic checkups and prompt repairs when necessary. Recap the moment the tread gets smooth. Smartest rule of all is to place the care of your tires in the hands of tire specialists. Let us worry about your tires for you.

Spare the carcass and save the tire!
