**Kennett Lawrence, Jr., Now An A.A.F. Second Lieut.**  
Kennett P. Lawrence, Jr., son of Mr. and Mrs. K. P. Lawrence of Coquille, who had been an Aviation Cadet at Boca Raton Army Air Field, Florida, a technical school of the A.A.F., Training Command, was on Monday last week commissioned as a second lieutenant in the A.A.F., at the graduation exercises held at the school. Kennett, a graduate of Coquille High, was a student at U. of O. when he entered the service May 15, 1942. His parents received a wire from him yesterday saying that his furlough home had been temporarily postponed.

**Bob Kline Now An Upper Classman At Rankin Field**

Kline of Coquille, has successfully completed his first five weeks of primary flying in 225 horsepower Boeing Kaydet biplanes at the Rankin Aeronautical Academy, Tulare, California, which is operated by J. G. "Tex" Rankin, world champion acrobatic pilot and a flying school operator for a quarter century. Aviation Cadet Kline now becomes an upper classman at Rankin Field where he will be taught the more intricate details of precision flying in the same airplanes and under the same instructors who have taught such famous aces as Richard I. Bong, first American pilot to surpass Captain Eddie Rickenbacher's record by shooting down 27 enemy planes.

**Leo Aber Receives Bronze Medal For Flight Achievements**  
Mrs. Harry L. Aber brought in to this office on Monday the bronze medal which she had received from her son, Leo L. Aber. The official communication accompanying it said it was awarded "for meritorious achievements in aerial flights" over Europe and is something of which his parents should be, as they are, very proud. In his letter, Leo asked them to send a pair of pants for an Italian boy who did not have any. He added that a pair would cost \$100 over there and, as the members of Leo's outfit are interested in the boy, they didn't want him running around any longer without pants.

**Letter From A Coquille Boy Now In Iran**  
Addressing his friends in this vicinity through the Sentinel, Robert E. Fults wrote on Sept. 24 as follows: "I thought I would drop you a few lines and let you know that I am in Iran and help get the supplies to Russia. We have a big job but we all do our part here in this uncivilized country. The people wear rags, a lot of them do, and the working class are called coolies. They work for about 65 or 70 cents a day, but their money is called 'reals,' and that is the kind of money we receive on pay day. "I have been over here for 15 months which is a long time in one place. My outfit is a 385 Port Co. We unload, ship and help get stuff on its way to Russia. It is a big job but we know it is better here than over in the front lines. "We have not been getting much mail the last two or three weeks, but it sure is good to get the Coquille Valley Sentinel and hear what is going on back there. I read about a lot of my friends and girls that I know in the paper. After being away from there more than two years, I sure would like to be back there. I used to live on a farm out west of Coquille and worked in the Smith Wood plywood plant before I joined the Army."

**This Coquille Valley Boys' Group Wins High Praise**  
From an Eighth Air Force Liberator Station in England: Sgt. Melvin M. Michel, of Lee Route, Coquille, is a refueler in the B-24 Liberator group commanded by Col. Albert J. Shower of Madison, Wis., which recently completed 100 bombing missions against enemy targets in the exceptionally brief time of 140 days. During this time, Col. Shower and his group "showered" over 10,000,000 pounds of high explosives onto enemy targets in Germany and the occupied countries. This group is a part of a combat wing which was cited by Lt.-General Doolittle, Commanding General of the Eighth Air Force, for extraordinary heroism and outstanding performance of duty in smashing a bridge of vital importance to the enemy by descending to the extremely low and dangerous altitude of 6,500 feet.

**Rotary To Present World Study Forum**

An Institute of International Understanding is a public forum conducted by a Rotary Club to study world problems in terms of the relationship of peoples of the world to each other. These Institutes are held one evening each week for four successive weeks. At each of these meetings an outstanding speaker gives an address on some phase of the general theme, "New Forces in World Affairs." His talk is followed by a forum period in which members of the audience may ask questions on the subject under discussion. Such an Institute is being sponsored in Coquille by the local Rotary Club. Similar Institutes are being held this year in some three hundred communities throughout the United States and Canada.

These Institutes of International Understanding are definite contributions by Rotary to the solution of international problems and the advancement of international understanding. Rotarians are strongly of the opinion that, if the various peoples of the world can become conscious of their inter-relatedness and can get together in a neighborly sort of fashion, the resulting good will and mutual understanding will take them a long way on the road to universal peace.

The prominent speakers presented by the Institutes discuss world affairs in a factual and informative manner. They are not propagandists. They present no panaceas for victory in World War II. Their object is to furnish material which may be used as a background so that the members of the audience may be better informed on world problems and so that they may form their own opinion. Because this has become a global war in every sense of the word, it is of paramount importance that the people in every community in the United States and Canada be well informed on world affairs. Through these Institutes of International Affairs, Rotary Clubs are making an important contribution toward this goal.

The first of these forum meetings here will be held in the high school auditorium at 8 p. m. on Tuesday, Oct. 31. Don Bolt, of Brazil, Ind., will be the speaker, his subject being "The Role of the North American Continent." The Rotary club has season tickets

for the four lectures on sale at \$1.20, including tax. General admission for a single forum will be 50 cents.
