

A Superb Bombing Job

Received by friends here is a copy of the Distinguished Unit Citation awarded the 459th Bombing Squadron in Italy, which was delivered by Major General Nathan C. Twining, A Coquille boy, Master Sergeant Paul Harmon, son of Mr. and Mrs. S. A. Harmon, is a member of that squadron. The citation reads:

From General Order No. 3036, Sept. 2:

"For outstanding performance of duty in armed conflict with the enemy... the 459th Bombardment Group was notified to prepare maximum number of aircraft for a mission against the Bud Voslau Airfield and assembly plant in Austria. The initial purpose of this mission was to destroy this target of primary importance to the Luftwaffe, which was capable of assembling approximately 100 aircraft per month."

"Throughout the day and night prior to the attack the ground crews worked untiringly and with grim determination to have their aircraft at the peak of mechanical perfection to insure the success of the vital operation... assuming the lead of the entire wing formation... intercepted by large formations of enemy aircraft while approaching the target, their group was singled out in a desperate effort to drive the bombers from their objective. Against aggressive and persistent enemy fighters... through an intense barrage of heavy and accurate anti-aircraft fire, they battled their way through heavy enemy opposition to deliver a devastating blow to this important enemy aircraft factory and surrounding installation. Through their concentrated efforts the target was completely obliterated by one of the most successful bombings experienced in the Mediterranean theatre of operations. The large productive output of enemy aircraft in the vital manufacturing center was cut at its source, thus effectively and seriously crippling enemy operational efficiency at a time of great importance."

"The 459th Bombardment Group has rendered an invaluable contribution to the war effort, thereby reflecting great credit upon themselves and the Armed Forces of the United States of America."

This was given during the ceremonies attending the formal award to the Group of the Distinguished Unit Citation.
