

To the People of this Community

The best way to observe the defeat of Hitler is to buy an extra War Bond. In thousands upon thousands of American homes today there is pride and eagerness. From deep homes have come fighting men who died to bring us this far on the road to decisive victory over our enemies. It will take more sweat, more tears, more toil, more greater individual War Bond buying before we see Japan in the ruins these barbarians of the Pacific planned for us. How much more blood and tears depends on every individual American war worker and Bond buyer.

The Eight War Loan symbolizes home building down on the lines. Some say you come to reality with your individual help. Buy at least an extra \$100 War Bond above your normal payroll savings. That's the least you can do to back up your fighting men.

THE EDITOR.

To the People of this Community

Five billion dollars of the 14 billion dollars our country needs to press the war against our enemies must come from individual investors. That sounds like a lot of money. Actually success or failure of the Sixth War Loan is up to each individual American.

Every war loan has been oversubscribed because Americans by the millions have shared its responsibility. Americans such as you have recognized the need of extra War Bond purchases over and above their normal payroll savings.

There is no such thing as a little fellow in a War Bond drive. Your War Bond purchases, multiplied by the War Bond purchases of your friends and neighbors, become fighting power which saves lives of Americans on the battlefronts and brings us nearer our common objective.

Speaker Change For November 17 Teacher Conference

(Continued from Page One)

This bitter and historic struggle. This prominent woman journalist arrived on the West Coast just after Pearl Harbor, after having spent ten years in the Orient reporting the Far East for millions of readers in the United States. She has spoken to and knows the people of every section — China, Singapore, Indo-China, the Dutch East Indies, the Philippines and India.

Vanya Oakes was in Shanghai when the war began, she traveled with the Chinese government on its trek into the interior. She traveled the Burma Road when it was first opened and recently made survey flight over India from China. During the period when Japan began its campaign to change the status of Indo-China, Miss Oakes reported from the scene and also covered the trade negotiations between Japan and the Dutch East Indies. Recent trips to Singapore, Thailand and the Philippines rounded out her picture of the Far East.

Miss Oakes, who as a young graduate of the University of California, in the spring of 1932, set out to see the Orient and lived and traveled in nearly every corner of the Far East for ten years, will give an up-to-the-minute discussion of the situation in the Pacific in her lecture here. Her lecture will be of interest to all who care to attend.

The address to be given by Dr. James Millar on the subject, "America Yesterday, Today, and Tomorrow," which was mentioned in last week's paper, will also prove of much interest to the public. Dr. Millar, field representative for the Oregon Council of Churches, is a very able and fascinating speaker and arouses in the thinking of his audience many thought-provoking questions. The writer sincerely wishes that it were possible for everyone to hear this address.

Those outsiders desiring to hear Miss Oakes are asked to be in the audience at 9:00 a. m. (the beginning hour), as she appears at 9:30, following the community sing. Dr. Millar will speak at 1:50 p. m.

Some 300 teachers are expecting to be in attendance on November 17.

Coos Co. Veterans Advisory Committee Headed By J. D. Carl

Organization of the County Veterans advisory committee for Coos county was completed at a meeting held at Coquille on Thursday of last week. This was a joint meeting with the county Land-Use Committee.

Plans are under way to provide every service possible to returning veterans interested in becoming established in agriculture in this county, according to J. D. Carl, who was chosen chairman of the committee at the meeting.

The county veterans agricultural advisory committee was appointed by E. L. Detlefsen, chairman of the Coos county agricultural planning committee, in accordance with a national program of the war food administration. The committee consists of farmers, some of whom are themselves veterans of World War I. In addition to Chairman Carl, the committee consists of Charles F. McCulloch, North Bend; Henry George, Coquille; Alton Clausen, Riverport; and E. L. Clausen, Broadbent.

General functions of the committee, it was decided will be to provide available technical information on agricultural production, marketing and homesteading in the county, as supplied mostly through the county extension office; to recommend what constitutes an economical farm unit under various local conditions, and to make a survey of local opportunities available to veterans either to lease or purchase farms.

The first step in the organization of the Veterans advisory committee has been carried out by the Federal Co-operative Extension Service in all states. County Agent George Jenkins explained the national scope of this movement, saying that the program calls for similar local committees in every county in the United States ready to render advisory assistance to returning veterans desiring it.

While the committee itself is composed entirely of farmers, it will seek the co-operation of local committees of veterans' organizations, of farm organizations represented in this county, and of other agricultural service agencies preparing to render technical or other special services. It is hoped that from 20 to 35 volunteer co-operating advisers will be available in the various communities of the county to assist with the work outlined, according to Chairman Carl.

The next meeting of the veterans committee will be at the call of the chairman and will be a joint one with members of the land use committee to appoint co-operative members in each community, and to discuss other matters which will be important in the committee program of work.

Mail Christmas Gifts By December 1

This is an urgent plea for your co-operation in a campaign to urge everyone to mail Christmas gifts destined for other cities by December 1. Unless this mailing date is met, gifts may not be received in time for Christmas.

Women, children, workers in factories, offices and elsewhere, housewives and each member of the armed forces and merchant marine, everyone must be impressed with the need to mail Christmas gifts by December 1. Shortage of manpower, unprecedented volumes of Christmas mailing, wartime demands upon transportation facilities will prevent handling and delivery of gifts in time for Christmas unless gifts are mailed by the deadline of December 1.

Here's what the Post Office Department says about it:

"During the coming Christmas period the necessity for mailing earlier than heretofore is most imperative. Mailings should begin in November and should be deposited in the Post Office before December 1, as the number of trained employees available for distributing and delivering mail will be seriously reduced and the mail transportation facilities curtailed due to war operations. Over 40,000 postal employees have entered the armed services, creating a serious shortage in trained personnel. Facilities simply are not available to transport and deliver, in the last three weeks before Christmas, the tremendous quantities of mail that in peace times has been moved in that period. There can be no assurance that gifts and cards to other cities mailed later than December 1 will be delivered on time."

"So our War Plant has finally furnished armed guards for the women and girls working on the night shift to protect them when they leave for home."

"Yes, it's the latest tragedy, the one where the girl was killed, has aroused the officials."

"I am glad they are doing everything possible to guard these truly heroic women who are working in war production. That is hard enough for them without making them run the risk of murder on the way home."

"But they aren't doing everything possible. In the case you referred to, it is thought undoubtedly the taverns just outside the plant are directly responsible. It was there, possibly over a 'friendly glass of beer', that she met the man or men who killed her."

"True, but are you suggesting that we close the saloons while our soldiers are overseas and have nothing to say about it?"

"The boys overseas are more concerned about the safety of their loved ones than they are about permitting the distillers, the brewers and the saloon-keepers to cause such crimes as these. Our ally, Canada, is doing a much better job than we are. She has restricted sales, closed the saloons except for a few hours a day, and stopped all sales advertising promotion of the sale of beer, wine and whiskey."

"And we — — — ?"

"We have done nothing about it at all. And the use of intoxicants is growing. The distillers, the brewers, the vintners are getting rich on selling the stuff that make our cities and our towns unsafe."

"You are right. It is time we did something about it."
