### Shorter Council Session Monday

(Continued from Page One)

have complete charge of removing it when the cabin is torn down. The Scouts now hold their meetings in the Community Building.

The council approved the American Legion's request that it be allowed to hold its meetings in the Junior Auditorium of the Community Building. A. L. Hooton presented the request and stated that the Legion would also need space for installing lockers. In agreeing to the request Councilman Geo. A. Ulett expressed the opinion that the present Legion headquarters, in the grove back of the Community Building, was more or less of a fire hazard for the Community Building and that the latter, in keeping with its name, should be the meeting place and center for as many local organizations as it is possible to accommodate there.

R. L. Stewart, who is on the Legion's Memorial Plaque committee, a subject which the council has previously considered, suggested that rather than have a bronze tablet showing the names of Coquille boys now in their country's service, that a suitably inscribed board for installation in one of the rooms of the Community Building would be better. Stars would be used to designate those who cannot ever return.

Water Superintendent Epperson reported that he had not had the water reservoir washed this winter, that a thorough cleaning job was done last winter, with all trash and debris removed and that there had

not been the former washing of sediment and trash into it this year. The reservoir still lacks 11 feet of being full to the brim and as it requires nearly two weeks to drain and clean the reservoir he hesitates about trying to do a washing job again this year.

The council approved his recommendation as it is more necessary to have the supply than it is to wash the reservoir.

No other business coming up, the council was ready to adjourn by nine o'clock.

#### Coquille Receives \$173.27 For Three Months For Liquor Tax

The City of Coquille this week received from the State of Oregon as its share for the last quarter of 1944 of revenues collected by the state from the tax on alcoholic beverages, a check for \$173.27. The amount due the city is figured on the 1940 population census, rather than on a percentage of the income from the sales of the state's liquor store here.

Coos county's remittance from the same source for the last three months of 1944 was \$834.05.

Remember Norton's for office, school and home supplies.

One pound of used fat makes enough synthetic rubber for 1.1 automobile tires. Save and turn in every drop. It's vitally needed.

When you need a gift—shop Norton's first.

If it is insurance, see me.—F. R. Bull.

Norton's carry a nice selection of records and sheet music.
