Must File Estimated 1945 Income Tax Report Prior to Mar. 15

About one out of every five individual taxpayers in the Oregon district must file a Declaration of Estimated Tax for 1945 not later than March 15. This is in addition to the filing of an income tax return for 1944, according to J. W. Maloney, Collector of Internal Revenue.

Declarations are required in general from business and professional people, landlords, investors and others who expect to get more than \$100 of income this year from sources outside of wages from which tax is withheld, and who expect that their total income from all sources will be \$500 or more.

A declaration must also be filed by a wageearner who expects to earn this year more than \$5,000 plus \$500 for every exemption except his own. For example, a wageearner supporting two dependents must file if he expects to earn more than \$6,000. However, if a person expects more than \$100 of income outside of wages from which tax is withheld, his total income being \$500 or more, he must file a declaration regardless of the size of his wages.

Under these provisions, the majority of wageearners are excused from filing declarations, for the reason that their taxes are kept substantially paid up by the tax which is withheld from their wages every payday.

Declarations also are required from farmers who expect to have \$500 or more this year, but farmers - meaning persons who get more than two-thirds of their income from farming - may postpone their 1945 declaration until January 15, 1946.

A March 15th declaration should be accompanied by a payment of at least one-fourth of the tax estimated to be due over and above any tax being withheld from the taxpayer's wages. The remainder is due in equal installments on June 15 and Sept. 15, 1945, and Jan. 15, 1946.

Special forms and instructions for making of declarations have been mailed to all persons who filed declarations last year. Additional copies are available from the office of the collector at the United States Custom House.
