Large Attendance At Good Friday Service

The Liberty Theatre was well filled last Friday noon, between 12:30 and 1:30 o'clock for the Good Friday services sponsored by the Coquille Ministerial Association. It was an audience which apparently appreciated the program and listened most earnestly to the sermon delivered by Rev. Chas. G. Brown. The title given his address was "Discovering Christ."

With Bobbie Burns playing the prelude and "All Hail the Power" for audience singing, Rev. M. D. Rempel led, from the platform, the singing.

The invocation was by Rev. V. W. Anglin and the scripture reading was by Rev. W. H. Munger. Rev. Liston Parrish made the announcements and pronounced the dismissal benediction.

Special music for the hour was furnished by Kenneth Talley, accompanied by Mrs. Talley, and by Mrs. Elois Carlson, accompanied by Bobbie Burns. Both musical renditions were greatly appreciated by those present.

J. H. Chappell Writes From Washington

Postmaster M. O. Hawkins is in receipt of the following letter from J. H. Chappell, who will be remembered by a great many Coos county folks as the blind piano tuner here, who is now in charge of a part of the Federal work for the blind, with headquarters in Washington, D. C.:

We are nicely situated here in Takoma Park just out of the District of Columbia and about an hour from the office. Mrs. Chappell, Paul and I are all well and like our work. I do have a little too much travel. Am writing at present from Atlanta, Georgia, and am returning from a field trip into North Carolina, South Carolina, Florida and Georgia. Have worked in Indiana, Ohio and West Va. and will go into Mississippi, Alabama and Tennessee next. My assignment is south of Washington and east of the Mississippi river, including Indiana and Ohio. I might also include the colored folk which are half the population here.

All Should Support The Clothing Drive

(Continued from Page One)

a gift of heaven to these millions of stricken people.

What is needed is good, substantial used clothing, for both winter and summer wear. Although clothing need not be in perfect repair, it must be useful to the people who will receive it. Underclothing and all types of cotton garments should be washed before they are donated, but need not be ironed. (Evening dresses, tuxedos and dress suits cannot be used.)

Caps and knitted headwear are needed but not women's hats nor men's dress hats. Bedding of all kinds is urgently needed, if in serviceable condition. Shoes, oxfords or high shoes, of durable type, with low or medium heels, are desired. They must be mated and tied securely in pairs.

Usable remnants and piece goods, one yard or more in length, but not rags, dirty or worn-out fabrics, are wanted. All types of infants' garments, particularly knit goods, are in constant demand.

In order to secure 150 million pounds of clothing, bedding and shoes, it will require about five pounds from every man, woman and child who has it to give.

The southeast corner room of the Community Building is the receiving center. Please get your contributions in early, says the committee chairman. Mend the garments, if possible. If you have clothing needing repairs and can not do it yourself, put it in separate bundles with any patches, buttons, etc. Mark plainly, "To be Mended." There are women's groups who will help repair these garments.

Open your closets. Open your hearts and speed the drive to its goal.

Riverton News

Sgt. Oran V. Holbrook is in a hospital some where in the Philippines, according to a report just received by his parents at Riverton. Mr. and Mrs. Ellis Holbrook. Sergeant Holbrook has been with MacArthur's 25th Infantry Division which had led the campaigns there since the landing was first made on Leyte. Several weeks ago he narrowly escaped death, only because of his steel helmet, when a burst of mortar fire hit his helmet. He was knocked unconscious but joined his Division the following day.

His injuries sustained this time are quite serious and he will not get back into action for a long time. One hip and one arm were badly injured, besides many pieces of shrapnel lodging in his body. He was able to write his mother a short letter and, in his usual cheerful manner, told her not to worry. He has never had a furlough home since his entrance into the army in 1942, so it is expected that he will be sent home as soon as he is well enough to travel that distance.

The Riverton Extension Unit will meet at the home of Mrs. Lester Clausen (formerly the J. D. Danielson place) Friday, April 6, beginning at 11:00 a. m. The demonstration will be on home sewing. All of us are doing more home sewing these days and this demonstration will teach how to give to our dresses and suits that professional touch we all want and desire so much. Everyone is welcome to attend. Please take a take a fine needle, thread, scissors, a small ruler and a small piece of cotton material with you. Pot-luck luncheon will be served at noon, the menu consisting of Spanish meat, mashed potatoes, vegetable salad and pudding for dessert. If possible get in touch with Marguerite Church as to what you should bring.

Mr. and Mrs. Robert McCue, who have been enjoying a few weeks' vacation from their ranch on the North Bank, returned home last week-end. They visited many interesting places in Oregon. When in Klamath Falls they had the pleasure of spending an evening with Mr. and Mrs. Max Mullen. Max is a former Riverton high school graduate and basket ball star. He has a physical discharge from the Navy, having been quite seriously injured while serving in the Pacific, when the drydock upon which he was working was blown up by Jap airmen. Max has regained much of his health and now is a bus driver on a Pacific Greyhound bus out of Klamath Falls.

Miss Billy Hepler left Coquille on the northbound bus, Easter Sunday morning, enroute to Eugene, where she expects to resume her work at the University.

Mrs. Hazel Hudson returned Friday from Los Angeles, where she had been called a week before because of the passing of her aged mother.

All casualties are not sustained on the battlefronts these days and Stanley Bogard is one who knows. Last Friday he was hit on the head at school by a flying missile of concrete, which cut several gashes, causing a great loss of blood and necessitating a trip to Coquille for immediate attention by a physician. However, the boy is getting along very nicely this week.

On Friday evening, April 6, a bridal shower will be given Mrs. Wayland Buoy, nee Gherie Mae Hartwell, at her mother's home in Riverton, the event being sponsored by Mesdames Eli Brault, Ansel Kight and Ellis Holbrook. All friends of the family are welcome to attend. All arrangements have been made with the ferryman between the hours of 8:00 and 8:30 p. m. for the convenience of the people on the North Bank. Also it will run later in the evening when they wish to return to their homes. This service will all be free to those desiring to cross at that time to attend the party.

The many friends of James Isaac Watson will be interested to know that he was united in marriage in Seattle last week to Mrs. Edna Neely, of that city. They visited part of this week with friends and relatives in and around Coquille, then left for Susanville, Calif., to visit Mr. Watson's aged mother. Mrs. Watson is an aunt of Mrs. Myrtle (Neely) Kelley, who is the primary instructor in our school here. Mr. Watson is the father of Mrs. Lee Atkinson and Mrs. Art McMillan, of Coquille, and Mrs. Lige Culbertson, of Myrtle Point. The best wishes of the community are extended to this couple.

Three Divorces Granted In Circuit Court Here Tuesday

Judge King granted three decrees of divorce in circuit court here on Tuesday, to the plaintiffs in the following cases:

James Brewer vs. Nellie Brewer. Joseph C. Long vs. Vena C. Long. Viola Walden vs. James W. Walden.

Calling cards, 50 for \$1.00.

Circuit Court Cases

March 28—Joseph Clarence Long vs. Vena Camilla Long. Suit for divorce.

March 30—Port of Coos Bay vs. Oscar A. Zabel.

March 31—Elizabeth H. Fox vs. Ralph E. Fox. Suit for divorce.

Ede, for \$500, an unconditioned Chevrolet pick-up on which the O.P.A. ceiling was \$385. As the amount which may be recovered, according to law, is three times the amount of the excess charge the plaintiff is suing for \$345 on behalf of the United States.

A traveling examiner of operators and chauffeurs will be at the Coquille city hall again next Tuesday, April 10, between nine and four o'clock, to conduct examinations and receive applications for drivers' licenses.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—brings heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pain, swelling—and constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to see off harmful acids, body wastes. They have had more than half a century of public approval. Are recommended by medical men everywhere. Do your best!

"'Til the cows come home"—
ON THE JOB

The nation's gratitude to our farmers was expressed recently by a high government official, who, in praising them said, "You can depend on this country's farmers 'til the cows come home!"

Yes, it's taking extra-long hours, extra-hard work, but our farmers are sticking to it... as always. Without trying to share credit deserved by them, we are proud of the aid farmers have gained from telephone service.

Howdy Folks:

Not wishing to excite anyone, but rather express the importance of keeping your battery in good shape. They will be a minus item if the demand continues at the present rate.

The oldest car battery I ever knew was in a 1915 car and was never changed until 1926. It had been properly cared for all these years.

It had been kept filled to the proper level with rain water caught in a wooden tub, had never been left in a discharged condition, was always held firm in the carrier, the terminals were always tight and greased to eliminate corrosion, the cables were large enough to carry the current without excess strain on the battery plates.

And speaking of batteries—

There will be a battery of volunteer Ladies and Gents pack and tie the clothing you all bring to the Community Building when you all clean out those closets this month.
