INSURE YOURSELF AGAINST ACCIDENTS

Inadequate Wiring Is Wasteful Inconvenient and Dangerous!

CHECK AND DOUBLE CHECK YOUR WIRING

- If various appliances must be disconnected to "plug in" others.
- If arrangements of furniture depends upon the location of a few convenience outlets.
- If lights dim perceptibly when appliances are plugged in or operating.
- If heating appliances, such as irons and toasters come up to temperature slowly.
- If rooms must be entered in darkness which sometimes results in stumbling across furniture before a pull chain or local switch can be found.
- If electricity is wasted by forgetting to turn off lights in the attic or basement.
- If fuses must frequently be replaced or circuit breakers reset.

It will pay you to check your wiring today. Booklets on up-to-date wiring are available at qualified electrical contractors' stores.
