Harvy Walski and Mr. Arnott, of Los Angeles, Calif., were business visitors in Riverside last week. Mr. Walski owns the cattle ranch operated by Mrs. Charlotte Smith.

Mrs. Alice Hubbell and son, John, were shopping in Coquille Saturday.

Social Security Man To Be Here Next Wednesday, Oct. 24

Charles H. Cannon, manager of the Social Security Board in Eugene, announces that 53 wage earners past 65 years of age in Coos and Curry counties have filed claims for Old-age Insurance benefits since October 1. Most of these were men who had retired prior to Pearl Harbor but who had returned to work during the last four years. Under the provisions of Old-age and Survivors' Insurance these workers have qualified for monthly benefits because they are no longer working in covered employment as defined by the Federal Social Security law.

Membership in a striking union will not prevent a worker from receiving benefits if he files a claim. If such an individual is not employed during the month of October he can collect an October benefit, providing he files his claim before the end of the month. No retroactive payments can be made.

Mr. Cannon will make his regular visit to Coos Bay, Tuesday, October 23. Anyone wishing information regarding Old-age and Survivors' Insurance should call at the United States Employment Service Office between 8:30 a. m. and 3:00 p. m. Wednesday, October 24. Mr. Cannon will be at the City Hall, Coquille, during the same hours to assist those who wish to file a claim.

Fire Prevention And Used Fat Suggestions For All

To follow up some of the suggestions offered to families during Fire Prevention Week, which ended October 13, Miss Patricia Smith, emergency assistant for Coos county, reminds readers to hold family fire drills periodically and to tell your family the futility of opening a hot door, especially if it leads into an upstairs hall. That hot handle or door means that combustion gases, superheated, have flooded the upper areas of the house with heat's natural tendency to rise. To open that door would be fatal, and the escape must be made from some other route than the main starway. Have a route designated beforehand, in case a fire should start.

Another important item to remember is that the need for used fat is still as urgent as it was during the war. The O.P.A. has increased the points per pound of used fats from two to four points.

Cliff Gulseth Sees The New Chevrolet

Cliff Gulseth, Chevrolet dealer of Southwestern Motors in Coquille, returned Tuesday night from Portland, where he attended a preview of the new 1946 Chevrolet at the company's zone headquarters.

He was reluctant to discuss the mechanical and style features of the new car, but by his eager attitude it was apparent that he expected the formal announcement and public showing of the car to be at an early date.

Mr. Gulseth said he and other dealers in the area were confident that the 1946 Chevrolet will maintain the record of top volume sales, which Chevrolet reached in 10 of the last 11 prewar years of automobile production, to meet the unprecedented pent-up demand for new cars.

Following the same policy as in former years, the new Chevrolet will be displayed simultaneously in dealers' showrooms throughout the country, Cliff said.

Radio and local newspaper announcements will be made, telling when prospective customers may see the new car for the first time. These announcements are expected to be good news to motorists and to dealers alike.

Throughout the war period, car owners have been forced to get along with their old automobiles. At the same time dealers have expended every effort to service these cars, and to keep them rolling for the duration.

Mr. Gulseth stressed car care, with the warning that motorists should not expect the 1946 Chevrolet to be available in great quantities immediately. The supply to dealers will increase as production in the Chevrolet plants permits.

Car Owners' Needs First Consideration

A. M. Bobbitt, of the Office of Price Administration in the Portland office, is assisting officials and local boards of this district in the fair distribution of their limited quotas of passenger car tires among the large number of applicants.

As long as the present acute tire shortage exists, it is vital that local boards in all cases determine first that a tire is actually necessary to the continued use of the applicant's car and second that the car is indispensable to the applicant in continuing his occupation because of the nature or place of his work.

In addition, boards are supplied with occupation preference lists to be used as guides in issuing tire certificates. These lists are helpful when used properly but the tire needs of an applicant who has no other means of getting to his job or performing it should always take precedence over the needs of a car owner who has access to other means of transportation.

This policy should be followed irrespective of the applicant's preference rating based solely on the importance of the services he performs. This means that a person who cannot earn his living without using his car should be given a tire purchase certificate before one whose services are more vital but who may get to work without a new tire.

Most local boards in the region have been doing a good job in handling their extremely difficult task. They should not be blamed when compelled to refuse applications. Boards have only a limited number of tire certificates that they may issue each month and they are guided necessarily by the relative needs of the many applicants and the OPA preference lists.

Present regulations permit as much flexibility as possible to relieve hardship cases and still provide tires for the most essential occupational drivers.

Naturally, all car owners want new tires as soon as possible and we will all be happy when we can end rationing. Meanwhile, however, our rationing system, if closely observed by all boards, will provide the maximum benefits from the new tires that are available and relieve severe hardship cases wherever possible.

Red Devils Lost But It Was A Good Game

Although they lost last Saturday's game with the North Bend Bulldogs, 40 to 25, the Coquille Red Devils surprised their most ardent supporters by the splendid showing they made, and it was a most interesting game throughout to watch; that is, when the clouds of dust did not envelop the players so that those on the side lines could not see what was going on.

The first two North Bend touchdowns, in the first quarter quickly followed Coquille fumbles and another fumble in the last canto was also followed by a visitor score.

The most spectacular play of the afternoon was made by Hagen of North Bend, who caught a kick in the second half, after a Coquille touchdown, and ran 70 yards for a Bulldog score.

Another most unusual item was that not once did either team punt on the fourth down.

North Bend scored 13 in the first quarter, 6 in the second, 7 in the third and 14 in the fourth. Coquille did not score in the first but made six in the second and their 13 in the third put them on even terms for a moment, but the visitors quickly turned on the power and again went ahead, not again to be in any danger. The Red Devils also scored six in the final frame.

Coquille's passing was most effective in helping them to score, George Johnson, Floyd DeNoma, Stacey Johnson and Tom Boots frequently crossing up the opposition with their tossing and running. Boots also made good runs and was a mighty hard man to stop, notwithstanding his small size.

The first Coquille score was started when DeNoma grabbed Johnson's pass out of the hands of a Bulldog on the North Bend 46 yard line. Passes to Stacey Johnson and Boots put the ball on the six-yard line from which point Boots went through center to score.

Boots also scored the Red Devils last touchdown when a Bulldog fumble was recovered on the 45, his last run being off tackle for six yards.

There was a good attendance from both Coquille and North Bend, the closing of business houses here for two hours helping to enlarge the crowd.

The pepsters of both schools were very entertaining with their yell

leading and acrobatics, and altogether it was a game long to be remembered. The loud speaker play by play report was given by Walt Bealey, of North Bend.

The same afternoon the Marshfield Pirates, at Myrtle Point, bowed to the Bobcats by a 13-0 score.

Anything can happen yet, before the 1945 schedule is completed, but at present it looks as though North Bend would capture the Coos conference gonfalon, Coquille coming next, followed by Myrtle Point and Marshfield.

IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR COUNTY OF COOS
LILLIAN KATHERINE LACKEY, Plaintiff,

vs.
ALVIN BARNARD LACKEY, Defendant,

Summons TO—Alvin Barnard Lackey, Defendant:

IN THE NAME OF THE STATE OF OREGON, You are hereby required to appear and answer the Complaint filed against you in the above entitled suit, on or before Friday, the 2nd day of November, 1945, said date being after the expiration of four weeks from the date of the first publication of this Summons, and if you fail to appear and answer said complaint or otherwise plead thereto, for want thereof, the plaintiff will apply to the Court for the relief prayed for in her complaint, to-wit: That plaintiff be awarded an absolute decree of divorce from said defendant; and for the care, custody and control of Donald Vernard Lackey and Lillian Loreen Lackey, the minor children of plaintiff and defendant; and for such other relief as to the Court may seem just and equitable.

The grounds upon which said relief is based in said Complaint is your cruel and inhuman treatment of plaintiff for more than one year prior to the filing of said complaint.

This Summons is served upon you by publication in the Coquille Valley Sentinel, pursuant to an order of Hon. Dal M. King, Judge of the above entitled Court, made, dated and entered on the 2nd day of October, 1945, and which order requires the date of the first publication of said Summons shall be on the 4th day of October, 1945, and the date of the last publication thereof being Thursday, the 1st day of November, 1945.

Will They Say THIS
-- About YOU?
We hear these questions time after time; every funeral director does. "Oh, I wish I knew what he wanted... what music... what cemetery... which clergyman we should have... what kind of casket... how much to pay..."
Don't add to the heavy burden of your family by expecting them to decide all these questions for themselves. More and more people are making arrangements in ADVANCE of necessity; it's the loving, thoughtful thing to do.
We have authoritative counsel for you; come in at your convenience, or, if you prefer, phone for a definite appointment. We're on duty RIGHT NOW.

WINTERS Coming
It's Really Your Problem But we've made it ours
If you've waited until the last minute to put in your winter fuel supply, you're going to have a tough problem to solve this winter. The cry that fuel will be scarce is no bogey to stir up fuel sales. If you think it is, just try waiting until the rains start before ordering any fuel.
Wood will be scarce. And that's where we come in. We've made your problem our problem and we've stepped up coal production to meet local needs, determined, if humanly possible, to supply the local demand.
Right now—today, not tomorrow
THE COAST FUEL CORPORATION
through its local distributors, can guarantee IMMEDIATE DELIVERY. When the rains come... well, that's a different story.
