LOOK to Greyhound first for

PUBLIC RESPONSIBILITY

The people of Oregon expect the best of Greyhound.

This is as it should be. For when this company undertook, and performed, the job of building a modern, first-class local transportation system for the communities of Oregon, it also accepted, without reservation, the great responsibility that goes with providing a vital public service.

On the strength of its outstanding leadership and its established record of perform-

ance, people have a right to expect Greyhound to be the first in everything connected with bus transportation. Greyhound believes that it has lived up to these expectations . . . that it has proved its deep sense of public responsibility. If this were not so, people would not now confidently expect so much of this company.

Greyhound can be relied upon to continue to justify your confidence. It is part of your community . . . and proud of it.
