Local Dog Lover Wants More Trees

On hearing of the pledge of local school children to support the "Keep Oregon Green" drive by planting 300 trees in the Coquille area, Dave Backoff, ardent tree planting enthusiast, states that no time should be lost in setting out these young trees.

While he has become immersed Dave says that despite the fact that the rains are letting up, he knows from personal experience there is still an abundance of moisture at this time. He urges that all Coquille men get behind the effort to plant these trees in the most strategic spots.

"I can say with authority," adds Dave, "that it is embarrassing to any enterprising business man to discover that in his city there are not enough trees to go around."

In addition to his recent interest in nursery work, Dave is a zealous dog lover, and on numerous occasions has expressed the opinion that the larger breeds of dogs should be restricted to the rural, less thickly populated areas where they might roam with greater freedom.

A funny incident happened several days ago and was most embarrassing to one of our local ladies. It seems upon returning home, this certain lady was told to go down the road and get some heifers that were out. She rounded them up with care and drove them into the pasture. Next day she found out they belonged to another neighbor. "Cattle rustling" in this day and age, eh, eh!
