LOOK to Greyhound first for

TIME-SAVING SCHEDULES

The people of Oregon naturally count on Greyhound to provide a system of accurate, convenient, time-saving schedules that so many Oregon communities depend on so completely today.

This important Greyhound "first" in travel service is more important now than ever before, and Greyhound does this job better...because it has trained, experienced experts in schedule building, the buses and equipment to put them into effect, the short, direct

routes that save time, and a thorough knowledge of Oregon's local transportation problems.

Greyhound is constantly planning more new schedules to move rapidly and safely—yet provide a complete local intercommunity service. And when the need arises for even faster bus service between larger cities Greyhound sets up extra schedules for additional limited buses to give still more and better service than before.
