Menning Reports New Studebakers Really Something Modern and Alive

Ralph Menning of Coquille Auto came back to Coquille this week from attending the Pacific Coast showing of the new Studebaker at San Francisco, and had nothing to say about San Francisco, the Bay region, or California. . . all he could talk about was the new Studebaker which he saw there and which will be on display at his garage a week from Saturday.

It's "Out of This World," Menning said, "the new Studebaker with a lot more glass than you'd ever imagine, modern streamlining that makes it sleek and attractive and powerful looking, and filled with expansive roominess." The new Studebaker is low, spacious, and expensively upholstered, yet in the medium price range. It is a low car in appearance, yet has the same clearance as all standard autos of today.

Dealers from all over the West were at the Palace Hotel to get a preview glimpse of their modern new automobile and hear engineers and designers tell them about all the new features.

According to Menning he hopes to have the newest Studebaker on display Saturday, June 22nd.

From where I sit... by Joe Marsh

Ben Ryder and the Wanderlust

During the war, Ben Ryder talked about the trips he'd take when gasoline rationing was ended. Used to pore over roadmaps—checking mileages and charting routes.

Now Ben's taking quite a lot of ribbing. Soon as rationing was lifted, he decided he liked staying home, putting in the garden, playing chess, sharing a pleasant glass of beer with friends.

"Shucks," admits Ben sheepishly, "as soon as you can go, then it's just as good as having gone!"

You might as well stay home... enjoy your friends and family.

From where I sit, that's a pretty common trait in human nature.

Take that glass of beer, for instance. During Prohibition, Ben was nursing an insatiable thirst. But come repeal, Ben suddenly finds he's happy with a friendly, moderate glass of beer—and nothing more. Yep—just tell folks the sky's the limit, and they'll settle for a piece of friendly earth.

Frankly, we've just about reached the end of our rope. Everything possible is being done to meet the demand for telephone service, but shortages of equipment and trained manpower are still preventing the immediate installation of telephones for everyone on the waiting list. We are trying to make your wait as short as possible. Your continued patience is greatly appreciated.
