GREYHOUND BUSES TO GLOW IN DARK Newest Highway Safety Measure

Outlines of Greyhound buses will soon glow at night from reflected lights of other cars, according to the president of Pacific Greyhound Lines F.W. Ackerman. For added safety, Greyhound will trim buses with war-developed plastic film containing thousands of microscopic glass lenses in every square inch. The Greyhound dog and designs on sides, front and rear are covered with this material. Appearance of the bus remains unchanged in daylight.

Equipping Greyhound's 4,500-buses with this safety feature will cost \$250,000, Mr. Ackerman said, and it is believed Greyhound's example will encourage other motor vehicle operators to adopt similar safety methods.

"All Greyhound drivers carry emergency flares, so our buses are at no time without illumination," the bus executive said. "Most large truck companies take similar precautions, but

other vehicles stopped along the highways without lights are a major hazard. We believe when motorists see how effective this new reflecting plastic is, they will adopt it and demand that manufacturers make it standard equipment on new cars."

A Small Business

Like Mine
Helps Make
America Great

I may not have the biggest payroll in town, but my Mobilgas station pays off big in driving satisfaction to a lot of people who come to me for Mobilgas, Mobiloil and the best car care service I can give them.

You see, I'm in business for myself and independently set up to give the kind of service that will make my business grow. I realize that I can protect what I have at stake only as I please you and bring you back... and that's important in these times when good, dependable labor is in such demand.

The same is true wherever you see the sign of the Flying Red Horse, for Mobilgas stations are independently operated by small business men like myself. When you use Mobilgas and Mobiloil, you not only get top flight motor fuel and lubricants, but courteous and conscientious car care service.

Al Hoffarber, Tigard, Oregon.

ONE OF THOUSANDS OF INDEPENDENT MOBILGAS BUSINESS MEN

Al Hoffarber established his highly successful Mobilgas station in Tigard, Ore., in 1926. That he has been a business success is attested by the fact that he owns his home in Tigard, a 20-acre silbert farm on Bull Mountain, a ranch at Greenburg, an additional business property in Tigard and a small ranch nearby for his prized horses and dogs. He is married, has one son, and for years has been a member of the Clackamas County Sheriff's posse.

"OTHER things I buy have gone sky-high... How come Greyhound fares are actually LOWER?"

Fares in OREGON now down to 1½¢ per mile!

IT'S TRUE!... Within the past 18 months Pacific Greyhound fares in Oregon have been reduced to a uniform one-and-a-half-cents-per-mile... while the price of nearly everything else has gone UP.

How did Greyhound do it?
By increasing the frequency of service in Oregon!

It works this way: As Greyhound adds more service, more people ride. 35 passengers can be carried for no more than it costs to carry 25. It costs little more to operate a depot for 6 buses a day than it does for 4... and so on. If more people ride, Greyhound's cost of operation per passenger goes down.

Pacific Greyhound then passes this saving on to the people... in the form of the lowest fares in Oregon, and better, more frequent service than ever!
