Tourist Week Set Now Under Way

With Oregon Tourist Week started by Governor Earl Snell and now under way, Coquille's Chamber of Commerce tourist committee, under the leadership of Harry Slack, is urging every local citizen with a spare bedroom to make a personal call on Robert Thompson, Hotel Coquille manager, and list the rooms available for stranded tourists.

The situation is drastic on the coast this year, the chamber announced, with the local hotel turning tourists away every night.

A charge can be made to the travelers.

The Oregon Coast highway association has spent thousands of dollars the past few years to bring tourists along the coast, and the chamber feels that they should be found some place to sleep when they are here.

It is expected that tourist industry will bring thousands of dollars a month into local merchants' coffers.

Your Credit Record is an Open Book

Preserving a good credit record is not only a matter of convenience, but of personal prestige.

For if you fall into the bad habit of not paying your bills promptly, the fact may become known to the merchant, physician, dentist, hospital, fuel dealer and other credit granters.

The files of the Credit Bureau show how you pay your bills. This record is available not only to the members of the Credit Bureau in your own community, but to the members of more than 1300 other Credit Bureaus throughout all the United States and Canada.

The Credit Bureau does not make your credit record. It merely keeps the record. If you are careful to buy only what you can pay for—and pay for it when it is due—the Credit Bureau will reflect your good reputation. If you buy more than you can afford—and don't pay promptly—these facts will be available to those from whom you may want to obtain further credit.

Your Credit Record is an open book—written by yourself in the way you meet your obligations. The only way to maintain it is by paying every bill on the date it is due.
