Dodge Men Back From City Trip

Dan, Al and Ed Stenmetz of the Steinmetz Motors returned from a meeting in Portland on Sunday where members of the Dodge field organization and the factory executive staff of Detroit outlined advertising, merchandising and other plans concerning the completely new line of trucks being introduced this month.

Dealers were told that the new line of Dodge "Job-Rated" trucks has been expanded to include 248 basic chassis models ranging from 4250 to 23,000 pounds gross vehicle weight and up to 40,000 pounds gross train weight. It covers 97 per cent of all the hauling and delivery requirements.

The continuing program of training dealers and salesmen to better qualify them to serve truck users in the selection of the right trucks and special equipment to meet specific hauling needs was outlined by the speakers.

The largest advertising release in Dodge truck history will be made to introduce the new trucks, the dealers were told. Media includes newspapers, magazines, vocational publications and poster boards.

The meeting was one of 60 being conducted this month throughout the nation by members of the Dodge field organization and the factory executive staff of Detroit.

Bob Bailey, who lives around the corner from me, (where you hear that pounding late at night — he's building a new kitchen for the Missus) came into the store last week, leaned over the meat case (where I keep those good cube steaks, pork chops, beef roasts, etc.) and said, "You owe me a dollar." Sure, I knew why, "A BOY" with lots of "oomph." The Missus is sure proud and why not?
