## Fairview News

Many deer have been reported shot lately at Fairview. Those among the most recent are Jim Hollenbeck, Charles Gellner and Raymond F. Norris. Mr. Gellner's deer was a four point.

A Stanley party was given by Mrs. Ivyl Frye last Friday. Among those attending were Mrs. W. Van Orman, Mrs. Royal Jensen, Mrs. Lloyd G. Carter, Mrs. Ernest Hatcher and Mrs. Jensen, Sr.

Mr. and Mrs. A. Saylor and Mr. and Mrs. Charles Thommen were dinner guests at the home of Mr. and Mrs. Albert Thommen last week. The occasion was Mr. Thommen's birthday.

Clearing of land on the ranch of Morris Vigue of the Upper North Fork has been under way recently. They have engaged the help of a bull dozer and it is certainly making a rapid improvement.

There will be a regular meeting of the Fairview Northfork

Grange, No. 739, Saturday, October 23. Come on, let's all be there, and celebrate the coming of Hallowe'en by everybody bringing a pumpkin pie.

A new teacher has been added to the staff of Fairview school. Her name is Mrs. Clough. I know I can speak for all of Fairview by saying we are glad to have her in our community.

Did you know that Fairview Grange walked away with the majority of the prizes in the White Satin Sugar contest. We and Mrs. Harry Hubbell to thank for their grand work in promoting the contest in the Grange. Also the cooperation of all members was of great help. All members come on to Grange Saturday night and hear the results of the Pomona meeting and the contest in detail.

Herbert Baker, an upper grade student of Fairview school received a broken nose when a baseball accidentally slipped from the hands of one of the younger stu-

dents during a baseball game. It is reported that he is back to school and is improving quite rapidly.

Lloyd Wilson shot and killed a bear while he was out on the back of his ranch last week. It was a two-year old as he could tell. Speaking of bears, Mr. Buoy has been reported to have shot several this year. So I guess if you can't get your deer, come on out to Fairview district and get a bear.

## THE GILLNETTERS WOULD SNARE YOU WITH THEIR NET OF MONOPOLY!!

MRS. HOUSEWIFE... when one small group gains control of a food-product's source can you imagine what might happen to the price of that food product—and to your cost of living? Throwing out a net of high-sounding words about "resources, sports fishing and tourist dollars" the Gillnetters' Union have forgotten to tell you *one thing*.

The initiative bill for the elimination of fixed gear in the Columbia River gives to the gillnetters 90% of all the catch on the Columbia River — the remaining 10% being caught by the Indians at Celilo.

The Oregon Fish Commission in its June, 1948 report, the *Oregon Voter*, and Oregon State Planning Board, all say the same thing. Elimination of fixed gear on the Columbia River does not act as a salmon conservation project—but in reality only means that *other gear* catch more and the *gillnets* will be all that are left.

What could happen to your food budget under a virtual monopoly? What might happen to salmon prices? You have had experience with other monopolies—what is your answer?

And bear this fact in mind—if the gillnetters did not want to gain absolute control—why would they initiate this monopoly bill? Both the state legislature and the Oregon Fish Commission have the authority to regulate all gear for salmon fishing, if it were necessary.

The bill to "eliminate fixed appliances" is *not necessary* — it only puts monopolistic control in the hands of a minority group — the gillnetters.
