MEMO TO HOMEMAKERS

BY ELLA S. WINKELS
County Extension Agent (Home Economics)

If we were all to be judged by our thoughts, the hill would be swarming with outlaws. — Johann Sigurjornsson.

Mrs. A. E. Elder of the North Bend unit really does wonders with her table decorations at the Vaughan club rooms. Certainly gave an "air of Thanksgiving." Mrs. Tom Hasan served a very different type of apple pie, it was very good. Seems it was an unbaked crust, apples next to crust and then a custard. She baked this and then added a meringue and browned it. I'm sure she'd give you the recipe for it if you asked her for it.

Didn't realize what a good job

the Englewood unit was already doing of "Concealing Their Figures." Believe there were four or five women under five feet tall at the meeting. Didn't notice until we measured them. By the way they are very salad minded in that group. Did anyone tell you we had 12 salads for luncheon one day last week? All were good, too. Had to taste each and every one.

Grendell is the first unit to have the A.C.W.W. quiz. Think the rest of the units will get it soon. Seems there is a prize for the winner in the contest. Grendell women scored very well from all reports.

Have you ever called at the Langenberg home out near Charleston? I have two times in fact. The first time Mildred wasn't home. Last Friday the Charleston unit met at her home. Really it is beautiful and such a view of the bay. I'm afraid if I lived there I wouldn't get anything done but look out the window. The Charleston group are really good at spooning for recreation. Ask them about it, may be it isn't what you think it is. It's a game with spoons and peanuts; it's loads of fun.

The Bridge Grange will soon have their building built, the way it looks. Had a fine turn-out for their turkey dinner on Sunday. Entire dinner very good. I'm afraid some of the fellows had to eat two dinners after pushing that old Ford of mine around. Can't understand it, I wasn't out of gas, either. Thanks a lot.
