Lookout Station Being Erected

A modern twenty by thirty rustic lookout station is being built at the Shoreacres State Park near Cape Arago. Otis Jensen, Oregon highway department park district superintendent, said today.

The lookout which will give a beautiful view of the tumultuous ocean panorama will have a large fireplace suitable for cooking in it, too.

This will allow winter visitors to watch ocean storms while they are out of the wind and cooking an open-fire dinner.

Other state parks on the coastal highway are being cleaned up and modernized in preparation for the summer tourist travel.

CRISP IS THE WORD FOR SPRING CLOTHES

"Crisp" is a word that applies to almost everything in fashion for Spring. Crisp dresses, suits, ensembles in taffeta, real faille, bengaline. Crisp accents on tissue failles and crepes! Wonderful and new are chiffon-weight taffetas, taffeta-finished cottons and shantung. Linen is the smart crisp for summer. The men's wear worsteds and tropical worsteds, especially skarskin, carry out the crisp idea in suits. Crispness gives a quality look to all fabrics... a silken look to dressy fashions, a hand-loomed look to casuals.
