### MAKES A BUSINESS OF BICYCLING

Thousands of Seaside's annual vacationists ride rented bicycles enthusiastically at a beach-pastime. Energetic Gordon Shaw in 1935 foresaw this popularity; decided to serve the public's fancy. He quit law school and started his South Prom Bike Shop near the Lewis and Clark turnaround. Business grew slowly, but today Shaw must hire assistants to help meet demands for bikes, tandems, tricycles and baby strollers. Shaw, active Seaside Chamber of Commerce official, also finds time to operate his large "Prom" apartment building. He's a long-time customer of First National's Seaside affiliate, the Clatsop County Bank.

### TURNING JUNIPERS INTO DOLLARS

In 1930, Vearl and Elsie Lehrman of Bend began making novelties from Central Oregon's juniper trees. With a gift lathe, powered by their washing machine motor, Lehrman turned out colorfully-grained items of his own design. Today their Western Juniper Novelty Co. is in a new building, with living quarters, modern shop and display room. They have mastered the individualistic wood, learned the public's souvenir tastes and developed far-flung sales outlets. "Ours is a product typical of Oregon which First National helped us develop," Lehrman says.

Now he's developing an orchard and seed crop ranch in Salem's Waldo Hills district. Jim's wife is his schoolgirl sweetheart, Eunice Johnson—and there are Donna, 6, and Dickie, 3. Says this topnotch farmer: "I especially appreciate the help First National gave me as a youngster."

# The Truth About Electrical Appliance Prices

## Are Prices Too High? Are You Getting the New Features and Quality You Expected in Post-War Appliances?

If your family has been thinking of buying a new appliance, you may be confused by conflicting stories about today's prices and values.

The fact is, there is no purchase you can make at this time that brings you more real value for your money than a good electric appliance. While the cost of living is up 70 percent over 1939, according to government statistics, the average price increase of ranges, refrigerators, washing machines, water heaters and dishwashers is only a little more than half that!

For Example, today you can buy a brand new 1949 Hotpoint Refrigerator for \$189.75—only \$10 more than the same kind and size cost in 1939—and this is a lot better refrigerator and has many improved features. When you consider that the dollar today is worth just 60% of its 1939 value, vastly-improved Hotpoint post-war refrigeration actually costs

A LOT LESS

Compare this with the price increase in automobiles, houses and almost anything you buy—up from 50 to almost 100 percent. We see no reason for you to wait to buy a new appliance. At today's new low appliance prices you get the greatest dollar-for-dollar values we have ever been able to offer. We say this knowing full well that our future depends on satisfying you. We sell a lot of things—everything for the complete electric kitchen and home laundry—so we can't afford to lose you as a future customer when you buy any more of our appliances.

"You can LOOK TO HOTPOINT FOR THE FINEST—FIRST" is no idle statement. We mean it. So, we back it up with the greatest dollar-for-dollar value in Quality appliances ever offered—Right Now!
